

Installation Guide

Keyboard Mounting Plate and Keyboard Tray

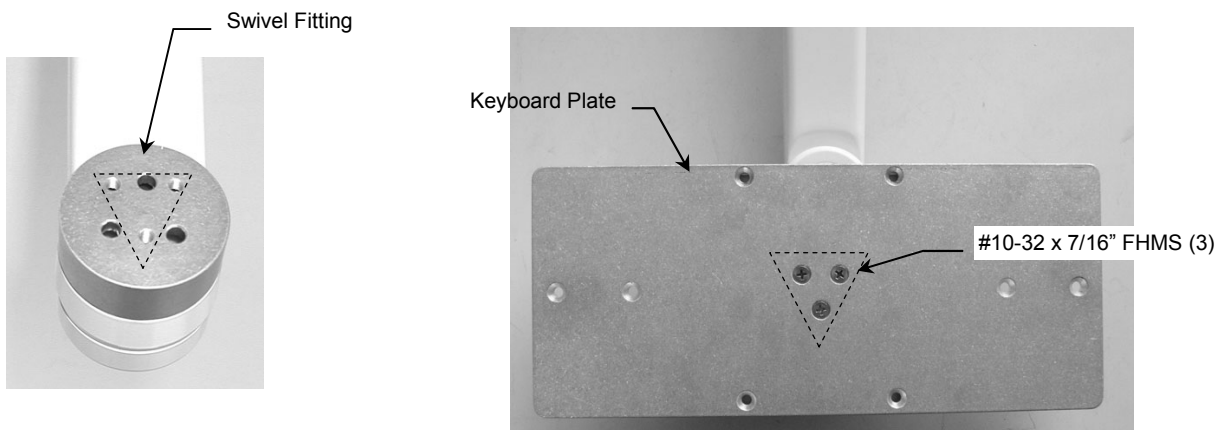

The purpose of these instructions is to:

1. Describe attachment of Keyboard Plate and Tray on Swivel-Only Arms.
2. Describe attachment of Keyboard Plate and Tray on Adjustable L-Bracket.
3. Describe attachment of Keyboard Plate and Tray on Ergo Bracket.
4. Describe attachment of Keyboard Plate and Tray to Folding Keyboard Bracket.
5. Describe attachment of keyboard to Keyboard Plate and Tray.

Mounting Keyboard Plate or Keyboard Tray on a Swivel-Only Arm

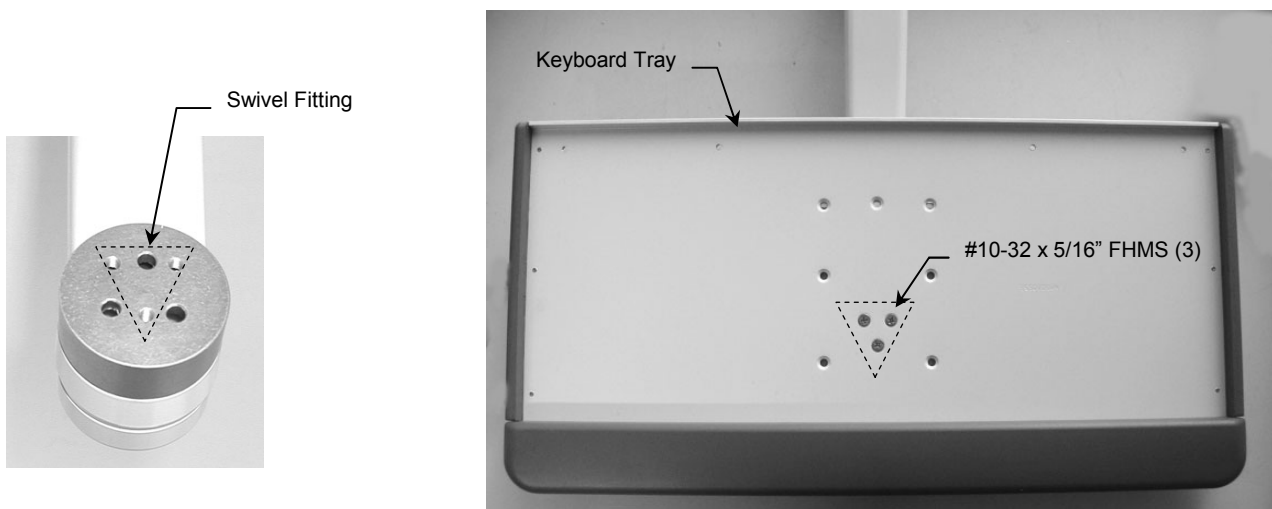

Keyboard Plate

Align 3-hole pattern on the Keyboard Plate with corresponding threaded holes in Swivel Fitting. Fasten Plate to Fitting with three (3) #10-32 x 7/16" FHMS.

Keyboard Tray

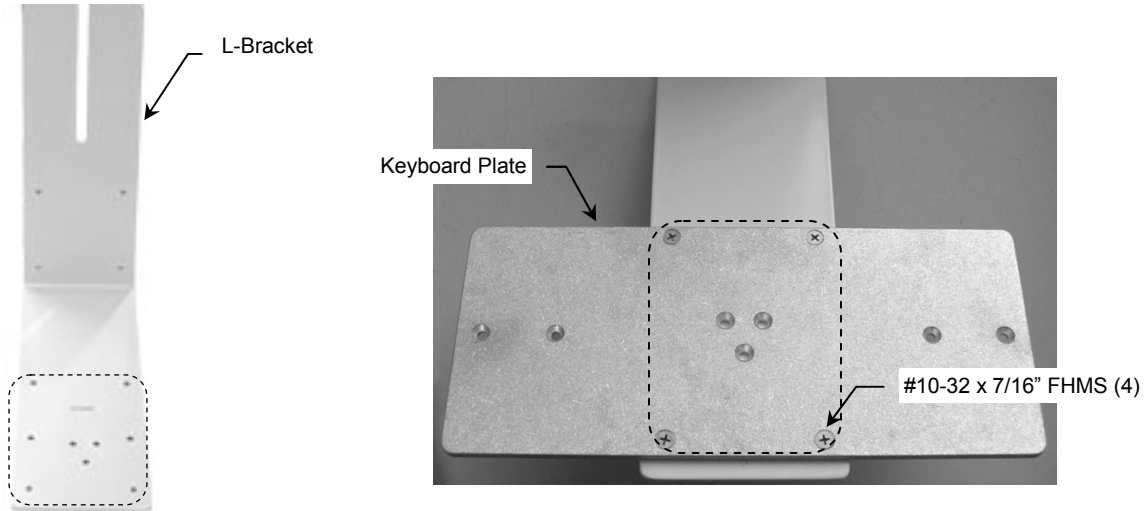

Align 3-hole pattern on the Keyboard Tray with corresponding threaded holes in Swivel Fitting. Fasten Tray to Fitting with three (3) #10-32 x 5/16" (100°) FHMS.

Mounting Keyboard Plate or Keyboard Tray on Adjustable-Height L-Bracket

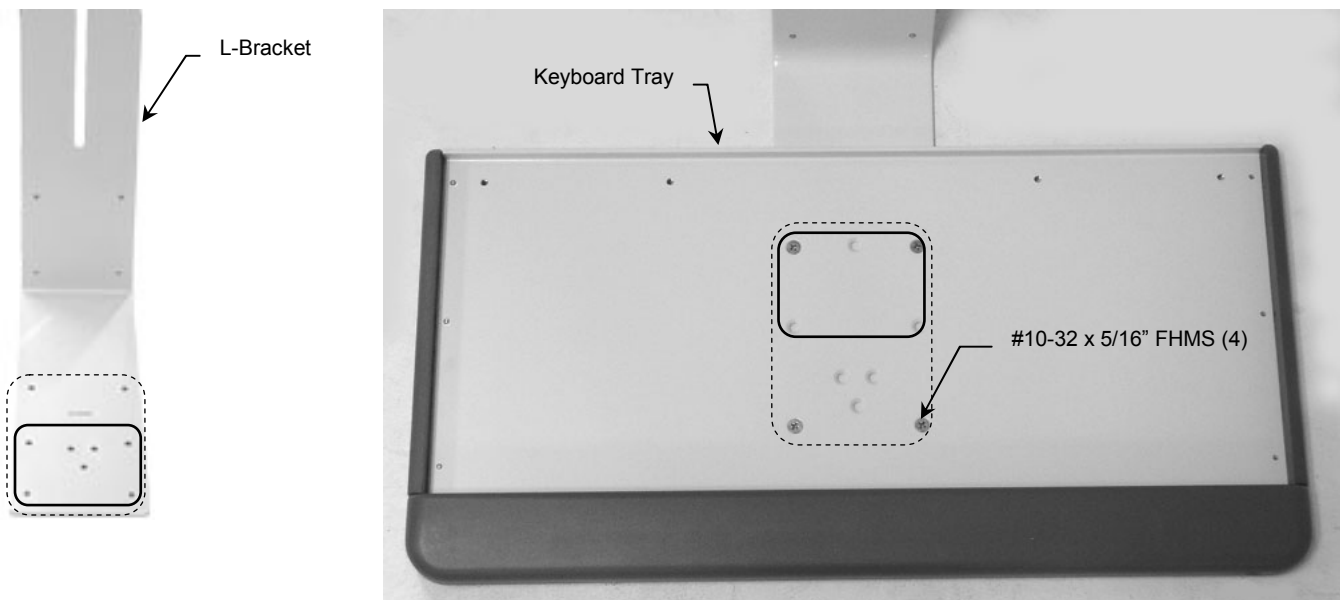

Keyboard Plate

Align 4-hole pattern on Keyboard Plate with corresponding mounting pattern on the L-Bracket. Fasten Plate to Bracket with four (4) #10-32 x 7/16" FHMS.

Keyboard Tray

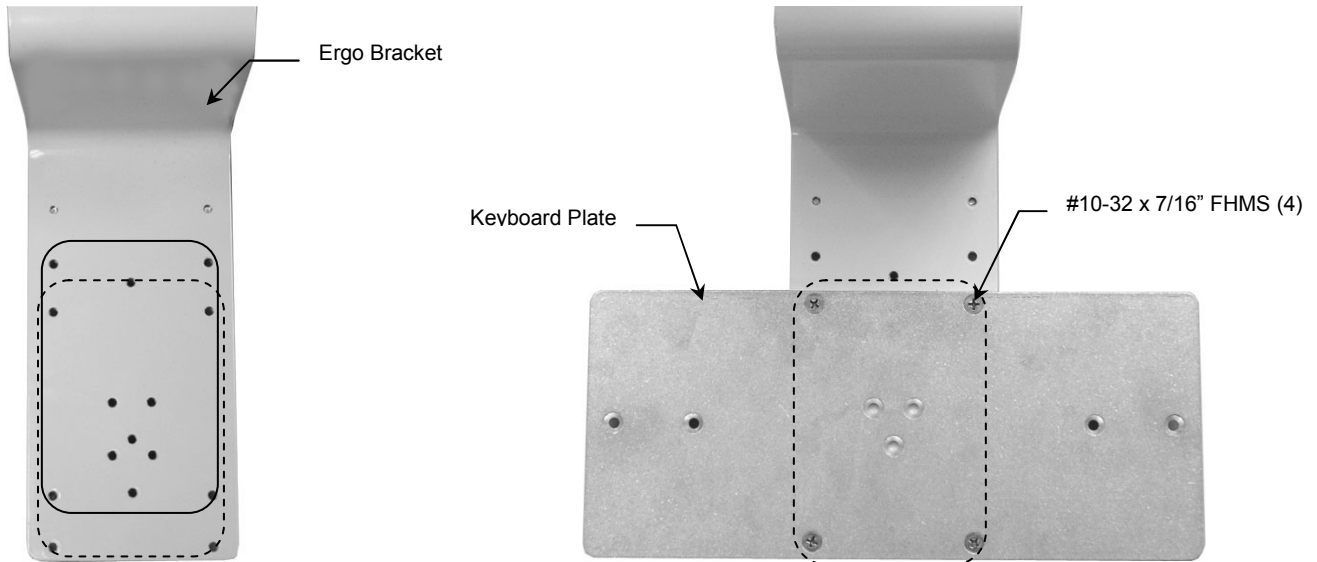

Align the 4-hole pattern on the Keyboard Tray with the corresponding hole pattern on the L-Bracket. Fasten Tray to Bracket with four (4) #10-32 x 5/16" FHMS. **Installation Note:** For greater depth separation between the keyboard and display screen, a second set of holes (solid outline below) is provided to mount the Keyboard Tray toward the end of the L-Bracket.

Mounting Keyboard Plate or Keyboard Tray on Ergo Bracket

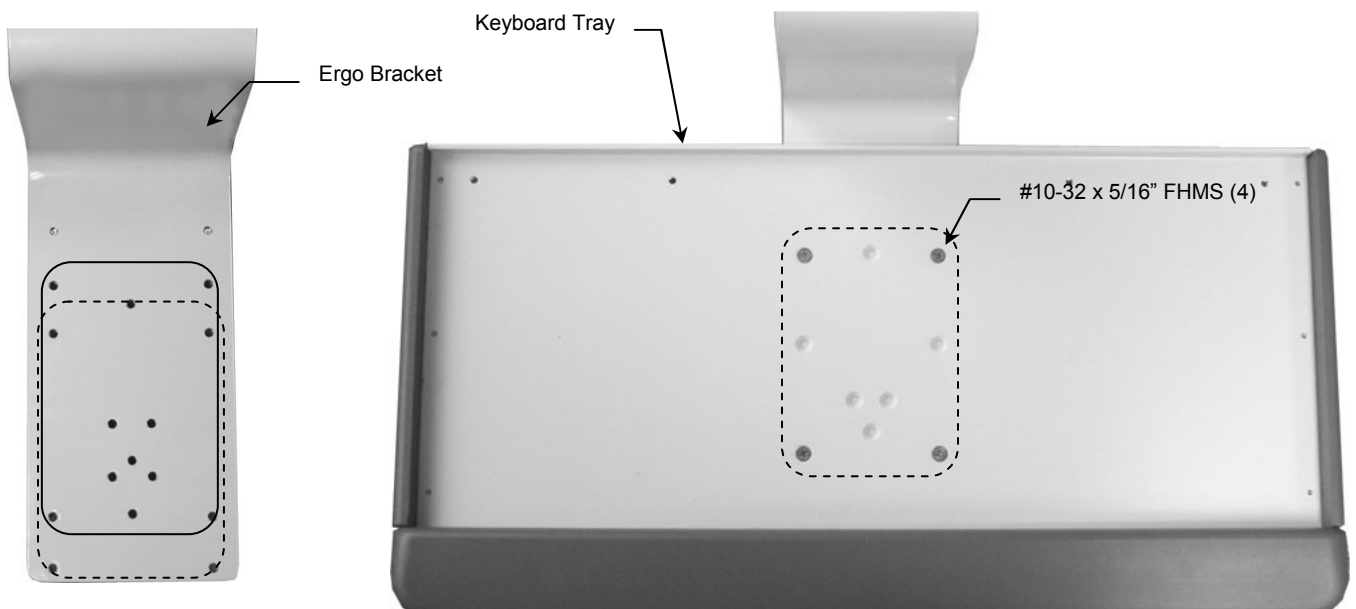

Keyboard Plate

Align 4-hole pattern on Keyboard Plate with corresponding mounting pattern on the Ergo Bracket. Fasten Plate to Bracket with four (4) #10-32 x 7/16" FHMS. **Installation Note:** For greater depth separation between keyboard and display screen, a second set of holes (solid outline below) is provided to mount the Keyboard Plate toward the front end of the Ergo Bracket.

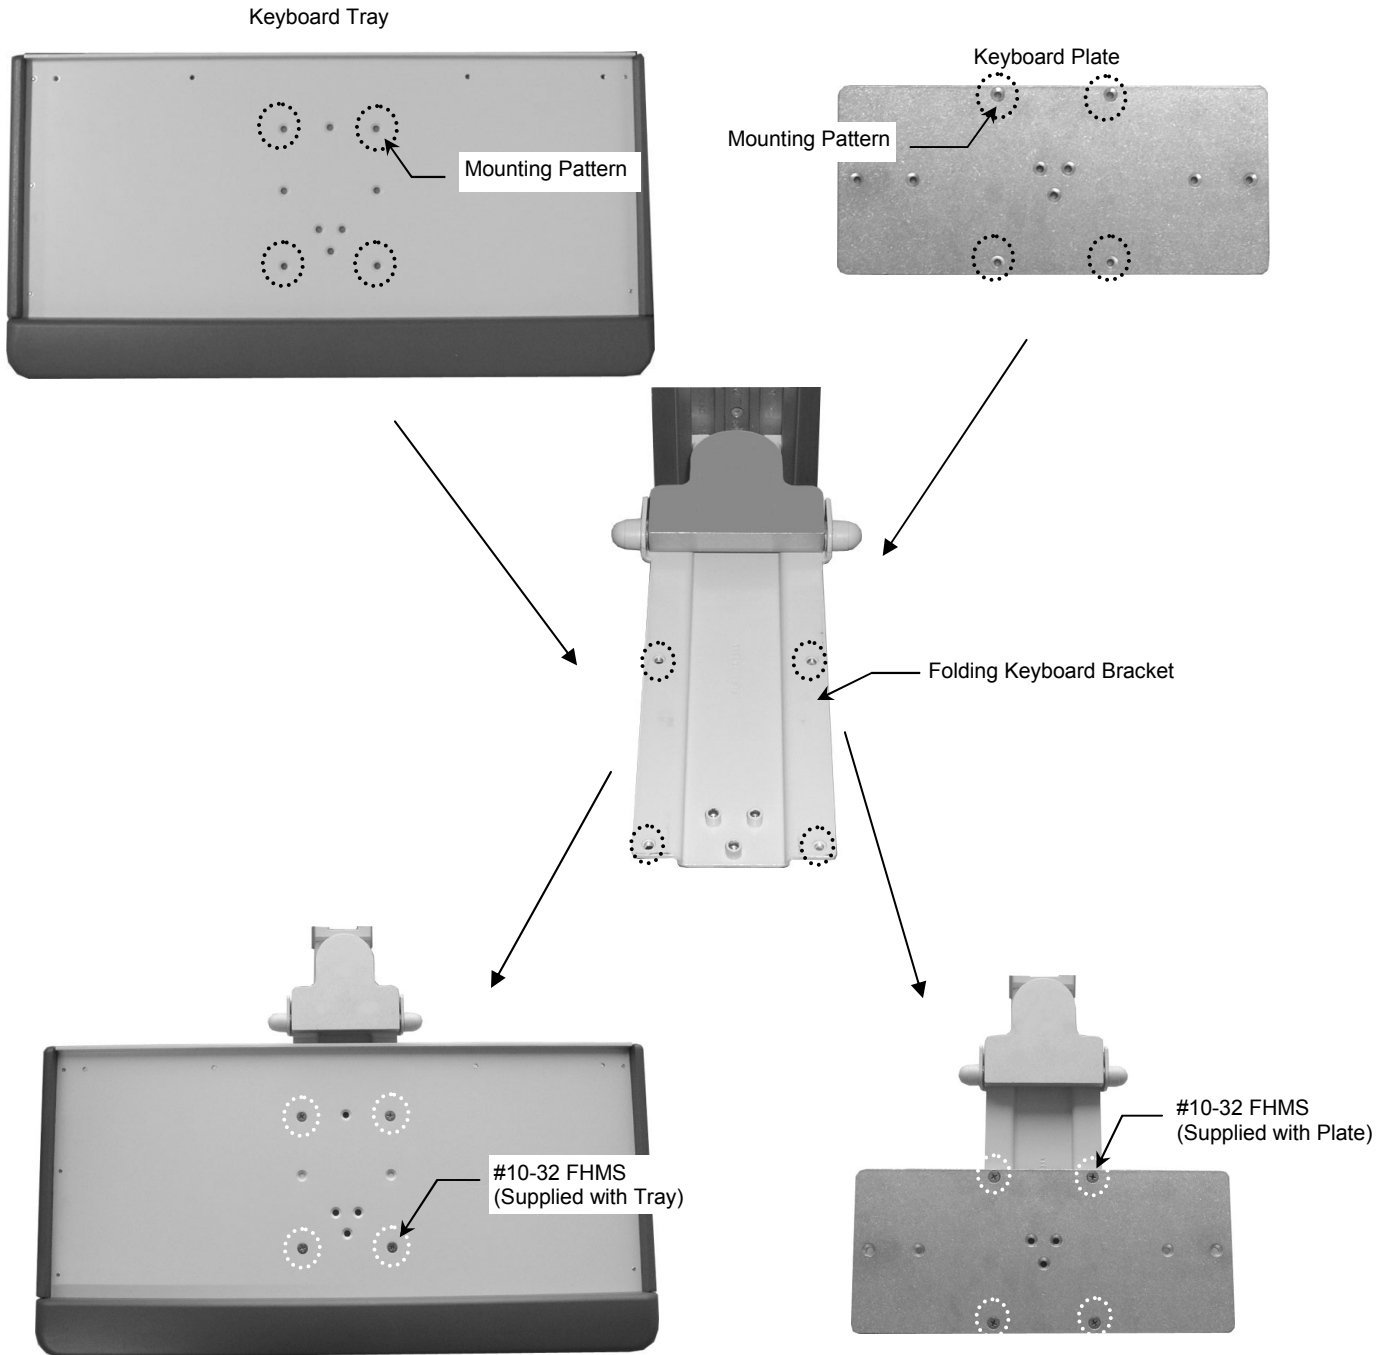

Keyboard Tray

Align 4-hole pattern on Keyboard Tray with corresponding mounting pattern on the Ergo Bracket. Fasten Tray to Bracket with four (4) #10-32 x 5/16" (100°) FHMS. **Installation Note:** For greater depth separation between keyboard and display screen, a second set of holes (solid outline below) is provided to mount the Keyboard Tray toward the front end of the Ergo Bracket.

Mounting Keyboard Tray or Plate on Folding Keyboard Bracket

Align 4-hole mounting pattern on Keyboard Tray or Plate with corresponding threaded holes in Bracket. Fasten Tray/Plate to Bracket with four (4) #10-32 flat head machine screws (FHMS). **Installation Note:** If Keyboard Tray is equipped with mouse trays, it may be necessary to slide both left and right mouse trays outward a few inches before attaching Tray to Bracket.

Mounting the Keyboard with Hook-and-Loop Strips

Two (2) sets of Hook-and-Loop Strips are provided with the installation kit for securing keyboard to Keyboard Plate or Tray. **Installation Note:** Before attaching hook-and-loop strips, ensure hook-side is aligned opposite the loop-side. An example of a typical hook-and-loop strip attachment is shown below.

1. Attach hook-and-loop strips to the bottom of the keyboard (below left).
2. Attach corresponding strip to Keyboard Plate or Keyboard Tray (below right). Keyboard Plate shown in example below.
3. Press keyboard onto Plate or Tray (not shown).
