

PRODUCT: VL1100 LED Luminaires

SUBJECT: Low Voltage Supply (LVS) Replacement

OVERVIEW

This technical notice is for informational purposes only. Users and owners are not required to inspect the low voltage supply in their VL1100 LED Luminaires unless they are replacing it.

VL1100 LED LUMINAIRE LVS CONNECTOR

Philips Entertainment Lighting would like to advise all users and owners of the VL1100 LED Luminaire of the following information in regards to replacing the low voltage supply.

Two varieties of low voltage supplies have been used in the VL1100 LED. If you need to replace the low voltage supply, check the connector to determine which LVS has been used in your luminaire and order the corresponding replacement part number indicated in [Table 1 “LVS Part Numbers”](#). See [Figure 1](#) and [Figure 2](#) for comparison of the two connector types.

Table 1: LVS Part Numbers

Connector Type	LVS Part Number	Cable Part Number
Molex	69-1602-2435	25-1602-0704
Ring Terminal	69-1602-2437	25-9663-2824
