# TV and location lights **150S**

A slimline LED studio softlight designed specifically for TV broadcast lighting. Higher than 90 CRI and consistent cool white 5600K and warm white 3100K, in a soft even output. Conventional cooling without fans to offer a quiet operation environment during TV program recording.

A large illuminance output area, 50° beam angle for a smooth even output to a far distant object. High performance optical system formed by a high quality PMMA convex lens and frost panel filter. With on board full color LCD display, all necessary data such as DMX address, intensity, Cd value, CRI, LED/tungsten mode, curve type, CCT and internal temperature can be viewed at all times. With the simple "touch and turn" design, all parameters can be easily adjusted.
