

SL STRIP 10 IP

The SL STRIP 10 IP is the ideal choice for outdoor entertainment applications, and wet environments. Ten cells of homogenized RGBW LEDs deliver a blended wash of colour, emulating the traditional halogen strip light effect, with reduced power consumption, lower heat output, and minimal maintenance.

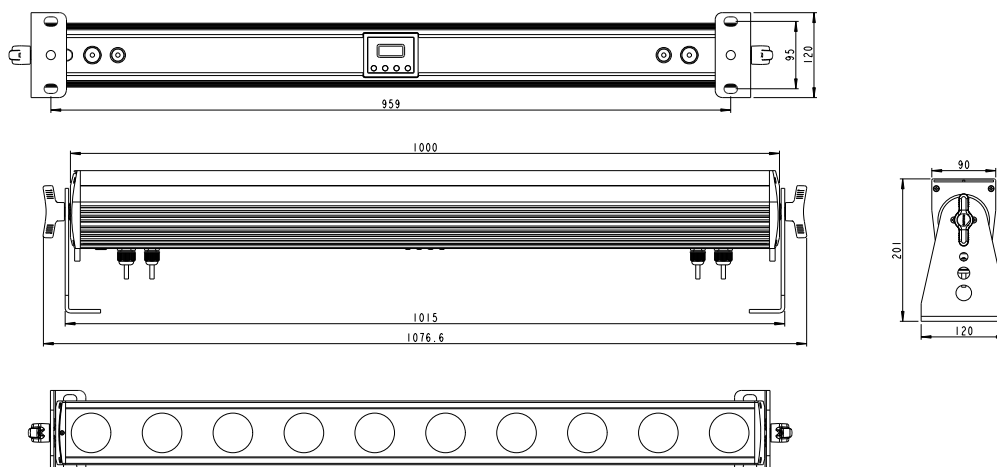

Control each cell individually for maximum flexibility, or in groups for applications requiring simpler control. The SL STRIP 10 IP can be easily configured to suit your design requirements. Choose the appropriate dimming curve, utilize the in-built chase programs, and adjust the beam angle by inserting one of the optional holographic diffuser lenses.

With its rugged construction, internal power supply and simple operating system, the SL STRIP 10 IP is an ideal replacement for conventional MR-16 strip lights for all outdoor entertainment applications.

Features:

- Rugged Construction
- 10 Homogenized RGBW LEDs
- 8 bit DMX-512A operates as 16 bit smooth resolution
- On-board LCD Menu System for addressing and setup
- Remote configuration available via RDM
- DMX-512A (RDM) in and thru connections - 1m cable tails
- In and thru power connections - 1m cable tails

Technical Specifications:

Version: SL STRIP 10 IP, IP65	Features: Built in Preset and Chase program Silent passive cooling
Optics: 6 degree native beam angle 15 , 25, or 11 x 38 degree diffuser lens	Physical: 110 - 240VAC, 150W Max. 1076.6mm x 120mm x 201mm, 7.5Kg CE
10 units of 4in I RGBW LED engine	
Controls: DMX-512A(RDM)	Luminance: 2240 lumens CRI/CQS: >90 (RGBW)
Modes: 16 bit RGBW mode - 1 pixel - 2 pixels - 5 pixels - 10 pixels 8 bit RGBW mode - 1 pixel - 2 pixels - 5 pixels - 10 pixels

Replacement holographic diffuser lens kit
15 degree, 25 degree, 11 x 38 degree

Harmonize Color Calibration Technology

At the heart of all Showline products is Philips Harmonize Calibration technology. Harmonize is a proprietary, advanced LED color matching system, consisting of 3 correction modules: RGB, RGBW and CoolWhite/Warm White. Every Showline fixture undergoes rigorous testing to provide you with consistent control of color and intensity as well as output of the highest quality.
