**Accent DMX**

Preset Control Stations

Designed for the European and Asian markets, Accent DMX stations are simple to use and operate. Each station supports up to 48 DMX dimmers. Room 1 has dimmers 1-48, room 2 has dimmers for 49-96 and each additional room increments in blocks of 48 to a maximum of 8 rooms. Room selection is via dip switch on the back of each station. A21, Wallrack, and C21/EC21 racks support DMX512 patching allowing the creation of smaller rooms using their integrated Mux patch functionality.

Each station has a built-in IR port for use with the included IR remote programmer. The programmer allows the operator to record, modify, and playback presets on each station. Designed to fit in a single gang back box, these stations provide a clean, simple to use control interface. Presets can be selected at the touch of a button, and the integrated raise lower keys allow the operator to master an entire preset proportionally.

**Features**

- Available in Asian markets
- Four and Eight Preset Control Stations with individual preset fade times
- Raise Lower Mastering
- Up to 48 dimmers per room, up to 8 stations and 8 rooms per system
