

**PRODUCT:** VARI\*LITE VL440 / VL770 / VL880 Spot Luminaires

**SUBJECT:** Gobo Ordering

**Note:** This notice is for ordering information purposes only. Owners and users are not required to inspect or replace their gobos unless they wish to do so.

### OVERVIEW

This Technical Notice provides important information about ordering replacement or custom gobos for VL440, VL770, or VL880 spot luminaires from Philips Vari-Lite or an Authorized VARI\*LITE Dealer.

**Note:** All VL440, VL770, and VL880 spot luminaires are supplied with a standard set of gobos. This notice is for replacement or custom gobos only. For information on the load of standard gobos, please refer to the Vari-Lite web site or the product owner's manual.

Please review this notice in its entirety and keep for future reference.

If you have any questions as to any aspect of this Technical Notice, please contact Vari-Lite customer service at 1-877-VARILITE or +1-214-647-7880.

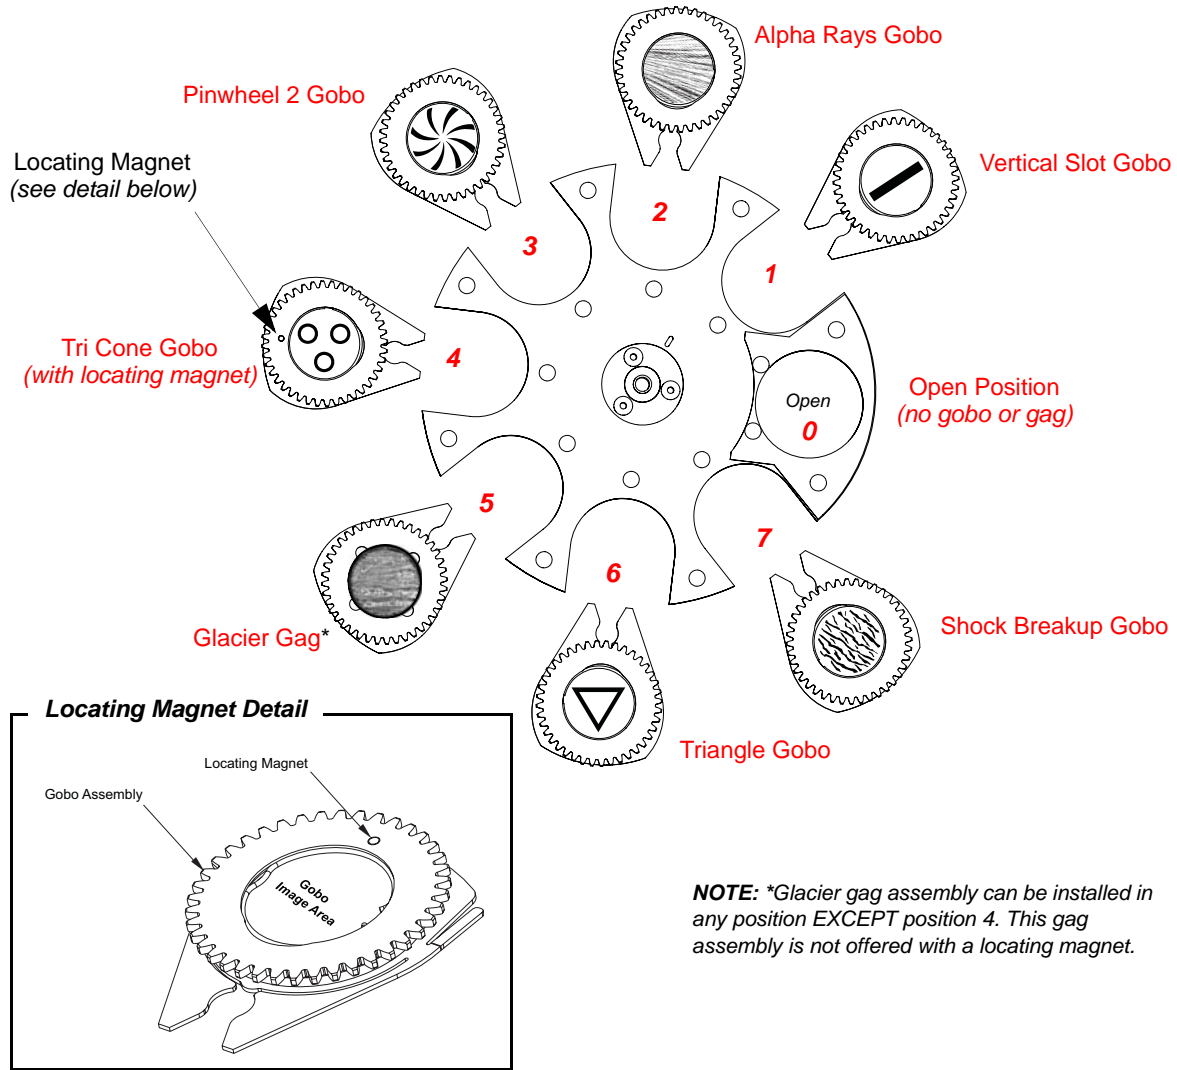

### VL440 / VL770 / VL880 SPOT LUMINAIRE GOBO ORDERING INFORMATION

When ordering a replacement or custom gobo from Philips Vari-Lite or through an Authorized VARI\*LITE Dealer, use the following order guidelines:

Order Number	Description
41.6004.XXXX	Fixed Gobo, VL440/770/880
21.6004.XXXX.01	Rotating Gobo Assembly, VL440/770/880 (without locating magnet)
21.6004.XXXX.02	Rotating Gobo Assembly, VL440/770/880 (with locating magnet)

### Ordering Notes:

- "XXXX" represents gobo or gag pattern number. For all available patterns and their associated numbers, refer to VARI\*IMAGE System page on the Philips Vari-Lite web site or contact your local regional sales manager or Authorized VARI\*LITE Dealer.
- Gobo assemblies with "locating magnet" are position specific.
  - a. On the Rotating Gobo wheel, POSITION 4 (standard gobo is Tri Cone), must have a locating magnet for proper calibration and indexing. Refer to [Figure 1](#) on [page 2](#) of this notice for additional information.
  - b. All other positions (1, 2, 3, 5, 6, and 7) will use a gobo or gag without a locating magnet.
  - c. Locating magnets are only applicable to gobo assemblies in the rotating gobo wheel. The fixed gobo wheel does not have a gobo assembly with a magnet.
