

LumiStone LED

LumiStone is a LED luminaire consisting of two smaller ellipses rather than the traditional single voluminous piece. The ellipses have soft curvatures and resemble smooth stones found in nature. The flexible light effects created with direct and indirect light make LumiStone the perfect choice for inspiring lighting designs. Thanks to its cutting edge LED technology, LumiStone is also highly energy efficient, delivering immediate savings on operational costs.

Features and Benefits

- Inspiring design with elliptical modules.
- Creates a truly inspiring environment with appealing design and indirect lighting.
- Over 50% energy savings compared to a functional luminaire, and even more compared to decorative solutions.
- Many variations thanks to innovative mounting options.
- Choice of direct and direct/indirect lighting.
- Office compliant for use in all office spaces.
