Our range

LED Modules and LED Drivers

Philips has designed these families of Systems and Drivers, each with their features and benefits, to help you in designing luminaires for a variety of application. Get to know these products better with this latest catalogue, and we are certain that they will meet your OEM needs.

Fortimo LED Modules

Fortimo LED Modules bring you maximum performance and compatibility. Engineered to be robust, they are highly reliable and of exceptional light quality. The energy-efficient range of portfolio can cover downlight, spotlight, linear and outdoor LED light engines for use in indoor and outdoor luminaires. Standard local system warranty from Philips applies.

Xitanium LED Drivers

Our popular Xitanium LED Drivers are reliable, robust and offer much needed flexibility through the operating window and its smart features. They are designed and manufactured for indoor and outdoor applications, available in various form factors with fixed light output, dimming and programmable versions. A unique characteristic of the Xitanium LED Drivers is that it actually allows one to carry out late stage programming and drivers configuration, which is very helpful in the production process.

CertaFlux LED Modules

CertaFlux LED Modules offer basic product performance and functionalities, with a quality of light that is good enough to meet the market needs for basic, general lighting. They are designed for luminaires targeted at high volume markets. These LED Modules come complete with standard local system warranty.

CertaDrive LED Drivers

CertaDrive LED Drivers are designed to meet the market needs for basic lighting. These are ideal for high volume manufacturing and design, suitable for applications to be put together along with CertaFlux LED Modules. Offering basic specifications, such as specific current and voltage settings, they are basic but efficient and dependable. Each driver comes with standard local warranty.

Just released

As with every year, the passionate team at Philips endeavors to bring you a series of new product introductions that are relevant to your design and business needs.

LED Indoor Modules – Downlight

Fortimo DLM EaseSelect Gen2

Continuously to provide integrated Driver on Board solution for downlight application with high performance. Very low ripple(4%) is achieved to greatly improve flickering performance. Released in Q4 2017

See page 20

CertaFlux DLM Slim

Easy to use solution for downlight application with affordable cost but no sacrifice on light quality. New CCT (6500K) is released in Q3 2017

See page 24

LED Indoor Modules – Linear

CertaFlux LED Panel

CertaFlux LED Panel are designed to enable OEMs to make slim LED luminaires for commercial office applications, with offering simple & flexible portfolio, high product reliability and peace of mind

See page 66

LED Indoor Modules – Spotlight

Fortimo SLM Gen7 1204 HD

High – density LED Modules from Fortimo SLM Gen7. The new range extends the possibilities to differentiate by combining a high punch effect with narrow beam optics in miniaturized luminaire designs

See page 37

Fortimo SLM Premium Color (Coming soon)

Optenhance the color quality to bring really vivid color imized spectrum help to further

See page 39

CertaFlux SLM Holders (Coming soon)

After Certaflux SLM Gen1 released, relevant holders will come soon which helps to ensure easy design in customers side. 3 SKUs will be introduced in the family

See page 44

LED Outdoor Modules

Fortimo FastFlex IP66 (Coming soon)

Fortimo FastFlex IP66 (FFIP) Modules offering best-in-class energy efficacy are designed to provide a total IP solution perfect for easy design-in in outdoor as well as industry applications

See page 72

Just released

LED Drivers – Smart Electronics

Xitanium SR Linear HV (non-isolated) Drivers

After launching LV/isolated drivers we have now completed the range of linear SR drivers by introducing a full portfolio of HV/non-isolated linear drivers with SR functionality

See page 89

Xitanium SR Outdoor 40W/22W Drivers Xitanium SR Outdoor 150W/75W IP67 Drivers (Coming soon)

With these new SR outdoor drivers you can build connected solutions in outdoor together with our SR Certified outdoor partners that offer city management systems

See page 90

LED Drivers – Industrial Drivers

Xitanium Dim 100W, 150W, 220W Independent High Bay LED Drivers

Ultimate robustness and thermal performance withstanding harsh industry application

See page 104

LED Drivers – Smart Electronics

EasyAir Industry Sensor SNH200

Based on Xitanium SR drivers, the EasyAir SNH200 is an easy to integrate, cost effective connected lighting solution; built with presence and daylight sensing capability, SNH200 is aimed at industrial applications such as warehouses, assembly or cold storage areas

See page 91

LED Drivers – Indoor Point Drivers

Xitanium Mini Dali

Mini platform extended to Dali features

See page 108

Xitanium Single Current Gen2

40W platform upgraded to Generation 2 and extended to 64W

See page 112

LED Drivers – Outdoor Drivers

Xitanium Lite Programmable 100W/150W/220W IP67 Drivers

Designed to delivery high-end performance and configurability via SimpleSet, IP67 LED Driver for harsh outdoor application

See page 97

LED Drivers – Indoor Point Drivers

Xitanium Single Current TE

New TE dimming drivers in Xitanium portfolio

See page 113

CertaDrive Single Current Gen2

Both 20W and 40W platform also upgraded to Generation 2 with better performance

See page 114

Just released

LED Drivers – Indoor Linear Drivers

Xitanium 100W TD16 non-isolated SimpleSet Driver

16mm non-isolated Dali driver, range extension to 100W + SimpleSet

See page 120

Xitanium 36W and 65W isolated SimpleSet Driver

Xitanium isolated new window drivers + SimpleSet

See page 121

Xitanium 35W and 60W non-isolated 16mm SimpleSet

After 16mm Dali driver offering, now also comes Xitanium 35W and 60W 16mm non-isolated fixed output drivers + SimpleSet, giving more flexibility in luminaire designs

See page 121

LED Drivers – Indoor Linear Drivers

Xitanium Single Current 29W, 38W, 57W, 59W isolated

Xitanium Single Current Isolated linear LED Drivers offer industry leading performance and reliability at optimized cost. They are low ripple drivers with dual output currents, ideal for high volume applications where performance specification is also the key

See page 122

Certadrive Single Current 30W, 44W non-isolated Driver

System offering with CertaFlux LED Strip G3

See page 124

LED Drivers – Constant Voltage Transformer

Constant Voltage LED Transformer

New dimmable range with phase cut function to meet increasingly dimming requirement in certain indoor application of constant voltage LED Strip and Module

See page 128

Constant Voltage LED Transformer

New range with full portfolio of economic LED transformer to offer value for money dedicated LED solution for constant voltage LED Strip and Module in indoor application

See page 129

LED Lamps - Spot

High Lumen MR16

It brings out the true beauty of the merchandise by intense light (up to 1200lm) with small form factor. It is perfect for retail application

See page 144

High Lumen PAR30L

With new look and even stronger performance, High Lumen PAR30L will enhance shopping experience and elevate store image. PAR30L 40W provides the highest lumen package up to 4500lm - a direct retrofit for CDM 70W

See page 149

LED Lamps - Tube

Essential LEDtube T5

Philips Essential LEDtube T5 helps customers to achieve up to 50% energy savings and significant maintenance cost reduction

See page 153

Sensor LEDtube

Philips sensor LEDtube helps customers to achieve up to 60% energy savings and significant maintenance cost reduction

See page 155

LED Lamps - Bulb

Philips LEDstick

Philips LEDstick deliver high quality light in a compact design ideal for downlights and slim luminaire applications, making it ideal for general lighting applications in the retail and hospitality industry by offering their guests a differentiating ambience and unique experience in public area

Downlight Modules

Perfect downlighting can be achieved for offices, malls, hospitality and public buildings. Offering light of high quality, minimal glare and a high level of flexibility, our downlight systems can be easily integrated into your designs.

Fortimo DLM EaseSelect Gen2

Downlight

Fortimo DLM EaseSelect is a high performance Driver on Board (DoB) solution, delivering an excellent quality of light with low flicker. Having an integrated driver and the same mechanical footprint as existing DLM solutions (DLM Flex), enables easy and hassle-free design-in. The Fortimo brand promise brings with it the assurance of quality, reliability and performance.

CertaFlux DLM EaseSelect brings with it good performance in a cost effective Driver on Board (DoB) solution, delivering a high quality of light with low flicker. Having an integrated driver, enables easy and hassle-free design-in.

Features

- Low flicker (Max 4% for output current Ripple)
- Ease of design – in
- Cost-effective solution
- High system Lm/W of 116 for high end project needs
- Long life-time: 50,000 hours
- Excellent color consistency of 3 SDCM
- Full portfolio with all typical downlight lumen packages (1100 lm, 2000 lm, 3000 lm) and different CCTs (3000K, 4000K)

Benefits

- Excellent cost-performance
- Suitable for compact heat sink designs
- Long lasting
- Covers all downlight applications and ambiance needs
- Simple and easy to maintain

Applications

- Offices
- Public buildings
- Retail

CertaFlux DLM EaseSelect Gen1

Downlight

Certaflux DLM EaseSelect brings with it good performance in a cost effective driver on board (DoB) solution, delivering a high quality of light with low flicker. Having an integrated driver, enables easy and hassle free design-in.

Features

- Low flicker
- Ease of design – in
- Cost-effective solution
- Good enough Lm/W upto >100lm/w, more initial cost driven projects (CertaFlux)
- Long life-time: 35,000 hours
- Excellent color consistency of 3 SDCM
- Full portfolio with all typical downlight lumen packages (1100 lm, 2000 lm, 3000 lm) and different CCTs (3000K, 4000K, 6500K)

Benefits

- Excellent cost-performance
- Suitable for compact heat sink designs
- Long lasting
- Covers all downlight applications and ambiance needs
- Simple and easy to maintain

Applications

- Offices
- Public buildings
- Retail

Fortimo DLM Flex Gen2

Downlight

Being the trend setter in high performance LED downlighting with the Fortimo DLM range, Philips introduced the next generation of the Fortimo LED DLM Flex family. Being backwards compatible with the previous generation, Fortimo LED DLM Flex Gen2 enables further optimization of existing as well as new flexible downlight luminaire designs.

Features

- Range of 1100 to 5000lm
- Offer includes PCB only version, shallow housing and high housing
- Compatible with both high performance, full flexibility window drivers and high value-for-money CertaDrive drivers
- Backwards compatibility and up to 162lm/W at an improved Tc of 75°C
- Better glare performance vs CoB solutions
- CRI >80 and perfect colour stability over lifetime
- Color temperatures: 3000K, 4000K, 5000K and 6500K

Benefits

- Full flexibility and design freedom based on a full portfolio
- Easy design-in based on outstanding efficiencies & high robustness
- High quality of light
- A reliable & flexible system proposition offering peace of mind

Applications

- Offices
- Public buildings
- Hospitality
- Retail

Compatible LED Drivers

The Fortimo LED DLM portfolio is compatible with multiple Xitanium LED drivers. Xitanium LED drivers are available as a built-in or independent driver, dimmable or with a fixed output. For a detailed overview of all available Xitanium indoor point drivers, please go to the Xitanium indoor point driver section at pages 108-113. To find the best driver module combination for your application, the “Easy Design-in Tool” is available via philips.com/technology. Below table shows which Xitanium LED driver window is compatible by default with Fortimo LED DLM.

CertaFlux DLM Slim

Downlight

Certaflux DLM Slim module provides a very easy to use solution for downlight application with affordable cost but no sacrifice on light quality. The module is integrated with optical and heatsink which help to make the product extremely easy to use. Optimized diffuser gives uniform light. Whole portfolio is fully compatible with Philips Drivers and with high flexibility in lm/w and S/W. 6500K is added in the family

Features

- Provides 600lm/1000lm/2000lm lum package
- Optimized diffuser provides good uniformity
- Up to 130lm/W @ module level
- CRI >80 and good colour stability over lifetime
- Fully compatible with Philips Certa Drivers
- Color temperatures: 3000K, 4000K, 5000K, 6500K

Benefits

- Easy to Use
- Flexible in Flux package with different combination with different drivers
- Good light of Quality

Applications

- Offices
- Public buildings
- Hospitality
- Retail

CertaFlux DLM EaseSelect Ceiling Light

Downlight

CertaFlux DLM ES Ceiling Light is a perfect solution for wide-diameter ceiling light application. This solution combines LED technology and driver with optical distribution. The system offers two lumen packages: 1500lm and 1900lm, along with two color temperatures: 3000K and 6500K. External optics ensure good uniformity of light distribution, and the design of this ceiling light ensures good heat management thus no need for an external heat sink. A standard Philips systems warranty is available for this product with a lifetime of 25,000 hours. An optimal choice to consider for a fast return on investment with a payback period estimated to be less than 1.5 years.

Features

- Two lumen output: 1500lm and 1900lm
- Efficiency levels surpassing TLE 32W
- High quality white light CRI 80
- 25,000 hours lifetime

Benefits

- Easy design-in
- >50% energy savings
- Standard warranty available

Applications

- Ceiling light for residential application, to replace TLE32/54 and TLE32/865

** For more and latest combination, please always check the Easy Design-in Tool.

Fortimo SLM Gen6 CrispWhite

Spotlight

Fortimo LED SLM CrispWhite is a unique solution that offers an unparalleled rendering of intense white and warm, deep colors within one light source. Fortimo SLM CrispWhite is ideal for use in fashion lighting applications, where the white colors in the fabric and material truly stand out from the display. The CrispWhite portfolio is available in all Fortimo LED SLM Gen5 CoB sizes.

Features

- The perfect mix of Crisp White Light and warm colours in one LED source
- CRI 90
- Zhaga form factor
- Tc life of up to 85°C
- Extend to 6.5mm LES size from Gen5
- Philips standard systems warranty applies

Benefits

- Outstanding quality of light
- Easy design-in
- Very good efficiencies
- Excellent beam control and small reflector design
- A reliable and flexible system proposition

Applications

- Retail
- CrispWhite works best for: paper, garment and textiles

Fortimo SLM Gen6 – Food WarmWhite and Food PremiumRed

Spotlight

Fortimo LED SLM Food WarmWhite and Fortimo LED SLM Food PremiumRed are dedicated propositions, geared towards fresh food applications. The Fortimo SLM Food WarmWhite offers a specific spectrum enhancing the appearance of fresh food such as bread, fruit and vegetables, whereas the Fortimo LED SLM Food PremiumRed specifically enhances the appearance of fresh meat. Both products are best in class light quality solutions.

Fortimo SLM Gen6 – Food WarmWhite and Food PremiumRed

* Module efficacy is calculated for the typical lm output. For more detailed & latest specifications (including lifetime) please always check the datasheets online or the Easy Design-in Tool.

** The CoB size defines the compatibility with the Fortimo SLM Holders. The CoB size is also given in the name of the Holder (see page 40).

Compatible LED Drivers

The Fortimo LED SLM portfolio is compatible with multiple Xitanium LED drivers. Xitanium LED drivers are available as a built-in or independent driver, dimmable or with a fixed output. For a detailed overview of all available Xitanium indoor point drivers, please go to the Xitanium indoor point driver section at pages 108-113. To find the best driver module combination for your application, the Easy Design-in Tool is available via philips.com/technology. Below table shows which Xitanium LED driver window is compatible by default with Fortimo LED SLM.

Fortimo SLM Gen7 1204 HD

Spotlight

Fortimo LED SLM Gen7 continues to focus on the combination of Quality of Light and performance. By offering the CoB separate from the holder, even more flexibility in possible system combinations and specifications is achieved. This results in an extensive portfolio of lumen ranges, CCT's and spectra's. Please also check the online Easy Design-in Tool for your perfect system combination (www.easydesigntool.com).

Features

- Smaller LES size with 9mm
- Broad portfolio in terms of CCT 2700K, 3000K, 3500K, 4000K & CRI 80, 90 available
- Separation of CoB and holders to increase reactivity and speed improved understandability of the portfolio
- Up to 120lm/W at 85°C Tc
- High Tc of up to 95(Max) for simple heat management
- Pre-configured system propositions both in high lm/W and lm/S
- Large choice of drivers available, including DALI dimming
- Philips standard systems warranty applies

Benefits

- Best quality of light for all applications
- Standard/Permium White/CrispWhite/Food available
- Excellent beam control and small reflector design
- Flexibility to optimize luminaire performance
- A reliable & flexible system proposition

Applications

- Retail
- Industry and outdoor

Fortimo SLM Premium Color

Spotlight

Fortimo LED SLM continues to focus on the combination of Quality of Light and performance. By offering the CoB separate from the holder, even more flexibility in possible system combinations and specifications is achieved. This results in an extensive portfolio of lumen ranges, CCT's and spectra's. Please also check the online Easy Design-in Tool for your perfect system combination (www.easydesigntool.com).

Features

- Optimized Spectrum to give true vivid color
- Covers CoB size from 1203, 1205, 1208, 1211, 1216
- Specific in 930 CCT
- Separation of CoB and holders to increase reactivity and speed improved understandability of the portfolio
- High Tc of up to 95 for simple heat management
- Pre-configured system propositions both in high lm/W and lm/S
- Large choice of drivers available, including DALI dimming
- Philips standard systems warranty applies

Benefits

- Together with Premium White to deliver best quality of light for all applications
- Flexibility to optimize luminaire performance
- A reliable & flexible system proposition

Applications

- Retail
- Industry & Outdoor

Fortimo SLM holders

Spotlight

Fortimo LED SLM Gen6 CoBs and holders can be ordered separately. This results in even flexibility and an even more extensive product portfolio. Optimized holders are available for spot and downlight applications. For pre-cabled luminaire designs holders with Poke-in connectors can be ordered. Every holder type is available for every CoB size. CoB compatibility is defined by the CoB size. New Zhaga Poke in holder and 35mm Poke in holder are introduced.

Fortimo SLM EaseSelect Gen1

Spotlight

Quality of light is key in retail lighting. The need for miniaturization is continuously pushing LED technology for smaller luminaires, often jeopardizing important specifications as flicker, lifetime and reliability. Fortimo LED SLM EaseSelect offers an integrated portfolio that combines the high quality standards of a Philips Fortimo/Xitanium system with the possibility for a luminaire design without a driver box.

Features

- Low flicker (4% ripple)
- Ease of design-in
- System efficacy of up to 115lm/W
- Long life-time: 50,000 hours
- Excellent color consistency of 3 SDCM
- Same LES and holder types as standard SLM Modules (Zhaga)
- Full portfolio with all typical downlight lumen packages (1100lm, 2000lm, 3000lm), different CCTs (Premium White, 4000K) and CRI (80Ra, 90Ra)

Benefits

- Suitable for compact heat sink designs
- Diameter of 70mm and max 90mm incl. heatsink for up to 3000Lm
- No driver box needed anymore
- Small LES enabling small reflectors even with small beams
- Heatsink part of the solution
- No cabling needed
- No thermal pad hassle with the CoB
- Simple and easy to maintain

Applications

- Offices
- Public buildings
- Retail

Linear Modules

Enabling design of high-performance linear LED luminaires. Ideal for recessed and surface mounted office luminaires, trunking, waterproof or high bay.

Fortimo LED Line HighFlux Gen3

Linear

Fortimo LED Line HighFlux Systems consist of Linear LED Modules with high lumens per foot, high energy efficiency and a high quality of light. Fortimo LED Line HighFlux Systems are designed to enable LED lighting at higher application heights where more light is needed, such as trunking, battens and high-bay applications in warehouses, factories or large-format retail stores. These smart systems come complete with the Xitanium iXt Drivers offering the flexibility to adjust current settings to differentiate on lumen output, efficacy and lifetime in extreme temperature conditions.

Features

- High Tc life range from -40°C to +90°C enables extreme ambient temperatures in the lighting application
- LED Module efficacy of up to 160 lm/W
- Long life-time: >50,000 hours
- Excellent color consistency of 3 SDCM
- Zhaga compliant

Benefits

- Enabling luminaires for high and rough application heights
- Excellent thermal performance
- High product performance
- Easy design-in
- Flexible specification due to smart Xitanium Drivers with Five year system warranty

Applications

- Warehouses
- Factories
- Big retail stores
- Cold storage

Note: The overview shows system configurations of the Fortimo LED Modules achieving nominal lumen output. Configurations marked* will give a slightly higher-than-typical flux, configurations marked** will give a slightly lower-than-typical flux (about 90% typical flux) with 350mA output of drivers. Please consult the online Easy Design-in Tool for all possible system configuration, available via philips.com/technology.

Fortimo LED Square Gen2

Linear

Fortimo LED Square Systems consist of white light LED Modules with square outer dimensions delivering high energy efficiency and high quality of homogeneous light. These smart systems are completed with the Xitanium Drivers offering the flexibility to adjust current settings to differentiate on lumen output, efficacy and lifetime. Fortimo LED Square Systems are ideal for office applications where the luminaires require very homogeneous exit surface window. Typical applications are recessed, surface mounted and suspended office luminaires.

Features

- Homogeneous exit windows for luminaires with depth of 4.5cm
- Module efficiency up to 176lm/W
- Quick mounting of modules with only 1 screw
- Tc up to 80 °C
- High quality of white light

Benefits

- Enabling homogeneous and shallow luminaires
- High energy efficiency
- Improved luminaire manufacturability
- Flexible system with Xitanium Drivers
- Fast and easy mounting with less cabling

Applications

- Ideal for office applications
- Recessed, surface mounted or suspended
- Ideal replacement in e.g. a 600x600mm

CertaFlux LED Square

Linear

CertaFlux LED Square Systems are ideal for office applications where the luminaires require a very homogeneous exit surface window. Typical applications are recessed, surface mounted and suspended office luminaires. The rectangular square is designed to reduce material and assembly cost for the OEM, compared to design of many other brands. The design of the LED Module is backwards compatible and the LED pitch remains unchanged compared to the Fortimo LED Square 2500lm, enabling to have one luminaire design for both the high performance and cost oriented segment.

Features

- LED Module efficacy of up to 146 lm/W
- Long life-time: >50,000 hours
- High color rendering (CRI >80)
- Excellent color consistency of 4 SDCM
- Variation of color temperatures (3000K, 4000K and 6500K)

Benefits

- Wide operating temperature (Tc) range from -40°C to +80°C
- Push-in connectors enabling automated wiring
- Three year system warranty

Applications

- Ideal for office, home applications
- Recessed, surface mounted or suspended
- Ideal replacement in e.g. a 600x600mm, 500x500mm & below

Note: The overview shows system configurations of the CertaFlux LED Modules achieving nominal lumen output. Configurations marked* will give a slightly higher-than-typical flux, configurations marked** will give a slightly lower-than-typical flux. Please consult the online Easy Design-in Tool for all possible system configuration, available via philips.com/technology.

CertaFlux LED Panel

Linear

CertaFlux LED Panel is designed to enable OEMs to make ultra-slim LED luminaires for commercial office applications. With various combination of Philips Drivers, OEM can offer very wide range of lumen package with a few panel modules which means it benefits maximum flexibility of luminaire offer to OEMs and end-user. CertaFlux LED Panel offers excellent product performance and reliability, with good quality of light, meeting market needs for office lighting.

Features

- LED Module efficacy up to 105 lm/W
- Long life-time 25,000 hours (L70B50)
- Excellent lighting uniformity
- High color rendering (CRI 80)
- Color consistency of <5 SDCM
- Choice of color temperatures (4000K, 5700K and 6500K)
- Two square form factors with 595x595mm & 603x603mm
- Create wide range of lumen package by driving current from 2260 lm to 3600lm (@600-1050mA)
- Slim LED Module (10.3mm)
- UGR (<20 at 600mA)
- Dimmable by Dali

Benefits

- Simply connect and 'Ready to Go'
- >50 lighting combination possible with panels & drivers
- Meeting office expectations for low UGR
- Easy wiring with Philips LED Drivers
- Three year system warranty in combination with Philips Driver
- Country presence with service, application and stock support

Applications

- Offices

Outdoor Modules

Where reliability and energy-efficiency matters.
Outdoor LED lighting components must be cost-effective building blocks that can be smartly configured to create tailored outdoor luminaires for various applications.

Fortimo FastFlex IP66

Outdoor

Fortimo FastFlex (FF) IP66 is an integrated module solution with IP protection, excellent optical and heat management, made possible by its mid-power LED and glass lens technology. The Fortimo FastFlex IP66 range consists of two product categories -based on their energy efficacy: "Standard" with typical energy efficacy of 140lm/w and, "Ultra High Efficacy" (UHE) with a best-in-class energy efficacy of 165lm/w. The entire system set includes FF IP66 modules, IP67 drivers and multi-connectors, creating a total IP solution perfect for easy design-in for outdoor as well as industry applications. Fortimo FastFlex IP66 is a modular system, with each module having a typical lumen output around 6000lm. The portfolio includes color temperatures of 3000K, 4000K and 5700K.

Features

- IP 66
- Flexibility to select different lumen output (100 to 700mA)
- Best-in-class energy efficacy up to 165 Lm/W
- 5 years system warranty
- 3 CCTs (3000-4000-5700K), CRI 70 and 80
- Various light distributions for Outdoor (Type II – III) as well Industry (High Bay)

Benefits

- Easy to design-in with practical dedicated light distributions for Roadlighting and High Bay
- Easy to install and maintain, CSA compliant, modular solution
- Robust IP66 rating throughout product claimed lifetime
- 50K hours at B50L70 at 50C

Applications

- Road lighting
- Urban street lighting
- High bay

CertaFlux PLM

Outdoor

The CertaFlux PLM is an integrated module solution with IP66 protection, excellent optical and heat management, made possible by its mid-power LED and glass lens technology. The entire system set includes PLM module, IP67 driver and connectors, creating a total IP solution perfect for easy design-in for outdoor applications. CertaFlux PLM is a modular system, with each module having a lumen output of 4500lm. The portfolio includes color temperatures of 3000K, 4000K and 5000K, suitable for new streetlight installations and could replace SON 150W, 250W and 400W.

Features

- Integrated heat sink and optics
- Complete IP66 system including module, driver and connector
- Color temperatures: 3000K, 4000K and 5000K
- CRI 70
- 50,000 hours lifetime

Benefits

- Easy design-in
- Relatively low investment
- Reliable and flexible
- Good value-for-money

Applications

- Streetlight

Industrial Modules

High Bay Modules designed for extreme industrial applications (factories, warehouses or large-format retail stores) offering high quality of lighting, best-in-class thermal performance, minimal glare and a flexible, encompassing range of luminous solutions.

Fortimo High Bay

Industrial

Fortimo High Bay (FHB) is an integrated module solution with IP65 protection, excellent optical and heat management that offers high energy efficacy and high quality of light. The Fortimo High Bay (FHB) solution is designed to enable LED lighting in Industry (high-bay) applications - warehouses, factories, large-format retail stores. A range of compatible IP67 Xitanium drivers complement the High Bay solution in order to further differentiate on efficacy and lifetime under extreme temperature conditions. The portfolio is suitable to replace conventional 100W, 150W, 250W and 400W solutions.

Features

- IP65 integrated heat sink and optics
- High energy efficacy, at least 140 Lm/W at Module level
- Various lumen-level solutions, 10K, 15K, 20K, 24K Lm
- Streamlined profile for best-in-class thermal performance
- 2 sizes (OD): 270mm (10K/15K/20K lm) and 310mm (24K lm)
- 2 Color temperatures: 4000K, 5700K
- 2 light distributions: 60° (high) and 90° (mid), via reflector
- CRI 80
- Re-enforced, tempered glass cover
- Enables complete IP65 system with IP driver

Benefits

- Easy design-in
- Relatively low investment
- Reliable and flexible
- 5 years system warranty

Applications

- High Bay, Mid Bay Industrial lighting

The new Easy Design-in tool

The Philips Easy Design-in tool aims to help you navigate systematically, through the specifications and decisions that one needs to make to get to a recommended LED Systems of a best match. A calculation engine is introduced here, with simple filters for you to click and select, to come close to a LED System needed for your particular luminaire in mind. This tool then helps narrow down your options, directing you to a set of tools best suitable for your design-in application.

LED Electronics Easy Design-in tool

In order to help luminaire manufacturers find their way through the growing maze of complexity of LED Systems and the different specifications they are capable of achieving, Philips has developed a Easy Design-in tool. Here you can experiment with the effects of tuning and combining LED Modules and Drivers, establishing the right settings needed to customize your LED luminaire.

With the Philips Easy Design-in tool you can adjust optical, thermal, electrical and mechanical specifications of Philips LED Systems to get your shopping list of associated LED Modules and Drivers.

The Philips Easy Design-in tool is an online platform that covers all Philips Fortimo LED Modules portfolio, Xitanium LED Indoor and Outdoor Drivers, CertaFlux and CertaDrive LED Systems, with the exception of modules with integrated drivers.

Method 1

Calculate and select by desired lumen output, efficiency level, measurement requirements, CCT, or CRI

Match the LED Modules to the driver options, with the appropriate window settings

Method 2

Start with a family of Philips LED Modules that you already have in mind

Explore the options for your particular luminaire needs

Method 3

Start with a LED Module that you have developed yourself, or sourced elsewhere

Select just the driver options available to complement your module

To try the Philips Easy Design-in tool, please visit our website at www.lighting.philips.com.sg/oem-asia

LED Drivers

LED Drivers portfolio

Our range of Philips LED Drivers are categorized for you to match your business requirements with ease. Refer to each range description to find out more.

	Outdoor Drivers	Industrial Drivers	Point Drivers	Linear Drivers
S Statement Connected and programmable	Xitanium SR Xitanium Full Programmable 		Xitanium Programmable 	Xitanium SR Xitanium Programmable
P Performance Flexible and future-proof	Xitanium Lite Programmable Xitanium Adjustable Output Current 		Xitanium Adjustable Output Current (WH Family) Xitanium Adjustable Output Current (Mini Family) 	Xitanium Adjustable Output Current
C Core Performance and reliability	Xitanium Dim Single Current 	Xitanium Dim Single Current High Bay 	Xitanium Single Current (Mini Family) Xitanium Single Current Xitanium Single Current TE 	Xitanium Single Current
E Entry Foundation	Xitanium Single Current 		CertaDrive Single Current CertaDrive Single Current (LPF Family) 	CertaDrive Single Current

Our range

Philips has designed these main range to help you with your application segmentation, and to facilitate easy selection of the most appropriate drivers to meet your needs.

Xitanium LED Drivers

Xitanium LED Drivers are reliable, robust and offer flexibility through the operating window and its smart features. They are designed for indoor and outdoor applications, and are available in various form factors with fixed light output, dimmable and programmable options. Offering the flexibility of carrying out late stage programming and drivers configuration, when required.

Features and benefits

Low ripple current. Camera-friendly and minimizes flickering.

Lifetime: Up to 100,000hours lifetime.

Intelligent, DALI 2.0 compliant, enabling connectivity/Internet of Things (IoT).

SimpleSet: Wireless configuration technology.

Best in class performance and energy efficient. Comes in spec-grade performance (THD/PF).

CertaDrive LED Drivers

CertaDrive LED Drivers are designed to meet the market needs for basic lighting. They are ideal for high volume applications together with CertaFlux LED Modules. Offering basic specifications, such as specific current and voltage settings, they come with a standard system warranty for your peace of mind.

Philips Xitanium SR Driver

Driving **connected lighting**

Connected lighting brings opportunities for energy saving, data collection, space management, and more. It enhances user comfort and enables cost benefits. The Philips Xitanium SR LED Driver plays an important role as a building block for connected luminaires. It works seamlessly with a range of sensors, and smooths the path to the Internet of Things. With the Xitanium SR LED Driver, it's easier to create luminaires for connected lighting applications.

Simplified luminaire design

The Xitanium SR LED Driver is sensor ready. This means it doesn't just provide power conversion for LED lighting, it also features integrated sensor controllers, power supplies and energy metering functionality. Everything is integrated, hence very few external components are required. As a result, luminaire design, manufacture and installation are greatly simplified and more cost effective.

Every luminaire becomes a node

By delivering actionable operational data such as energy consumption, daylight harvesting and occupancy patterns to a building management

system, every luminaire becomes a connected lighting node. The Xitanium SR LED Driver is a simple and cost effective way of stepping into the rapidly growing world of connected lighting.

Accelerate your connected lighting business

Standard DALI 2.0 communications between driver and sensor means that you can choose from a wide range of sensor manufacturers to design the solutions that are right for you and your customers. By working together and matching technologies, OEMs, sensor manufacturers and system integrators help realize seamless connectivity.

Smart lighting fixtures will drive enhanced energy saving and make **Lighting** a key element in the “Internet of Things”

EasyAir office sensor the wireless solution

The Philips EasyAir office sensor wireless sensor range is compatible with the Xitanium SR LED Driver. These sensors provide cost effective, mainstream sensing, as well as easy integration.

Adding sensors to luminaires brings huge benefits in terms of energy management and building regulation conformity. Existing sensors are bulky, expensive and difficult to design-in. The Philips EasyAir office sensor changes all this. The sensor's single-box, luminaire-mounting format and two wire connection helps you to save time and costs when integrating occupancy

sensing and daylight harvesting into your luminaires. The EasyAir office sensor is designed to be luminaire-integrated which reduces the likelihood of errors during installation.

EasyAir office sensor helps to reduce time to market thanks to its full compatibility with Xitanium SR LED Drivers. This eliminates the need for auxiliary devices and eliminates time consuming configuration issues. The simple, two-wire connection from driver to sensor also helps reduce design-in complexity.

For project specifiers, EasyAir office sensor helps to increase efficiency by enabling energy saving and compliance without impacting project time or aesthetic. There's no need to wire sensors outside the ceiling fixture, eliminating mistakes when placing the sensors and luminaires. Projects can be completed quickly, while the integrated sensors leave the ceiling uncluttered.

Another EasyAir office sensor breakthrough is the ability to configure via

SimpleSet which means the sensors can leave your factory fully configured, ready for app-based commissioning on site. The Android based app simplifies programming occupancy and daylight sensing parameters, while enabling you to fine-tune lumen levels.

The EasyAir office sensor is ready for the future. By integrating the EasyAir office sensor into your luminaire, you are now ready to enter the connected world of tomorrow.

The EasyAir office sensor SNS200 has on-board Zigbee and infrared communication to enable Advanced Grouping behavior in offices. It offers a perfect solution for applications where multiple luminaires need to be grouped together to respond to motion and daylight changes. All this without pulling wires and opening ceilings. Scenes can be used to create different settings in combination with Zigbee Green Power wireless dimmer switches. With your smartphone you can commission the groups with ease using our Philips Field Apps.

Connectivity in linear lighting

New Philips Sensor Ready drivers are ideal for use with sensors and building management systems. With its integrated DALI 2.0 power supply it is easy to power sensors and wireless modules directly from the driver. It also features integrated energy metering for use in building management systems from the SR Certified program. This program with key building management and sensor vendors ensures that certified sensors and controllers work seamlessly with the Xitanium SR driver. For more information go to our webpage at <http://www.philips.com/xitaniumsr>.

The EasyAir sensor range is a brand new range with presence and daylight sensors that can be used all across offices, including open plan offices, meeting rooms and corridors. The EasyAir sensors' single-box, luminaire-mounting format and, powered by Xitanium SR, a two-wire connection will save time and costs when integrating them into your luminaires. The EasyAir sensors are ready for the future. By integrating the EasyAir sensor into your luminaire, all work is done to enter the connected world of tomorrow. So let's get connected.

Xitanium SR Linear HV (non-isolated) Drivers

Connectivity in outdoor lighting

New Philips Sensor Ready Outdoor drivers are ideal for use with Smart City management systems. This driver simplifies the design and production of connected luminaires that use intelligent lighting controllers from our SR Certified Partners by reducing wiring and component count. It adds new features like diagnostics and accurate power metering. Furthermore, it enables luminaire manufacturers to design and build future-proof solutions that align with phased investment capabilities of municipal authorities. Using the driver in combination with industry-standard Zhaga connectors enables sensors and other connected devices to be added to the luminaire at a later date. This makes cost-effective upgrades possible as financial resources become available. For more information go to our webpage at <http://www.philips.com/xitaniumsr>.

EasyAir industry sensor SNH200

Market trends and needs in Industry segment

The rapid growth of online retail and shopping has boosted logistics and warehousing facilities. This has given rise to an increased need for asset management and energy savings. A typical warehouse has a huge potential for energy savings as lighting contributes to the highest energy cost, especially in non-refrigerated warehouses. Large parts of such warehouses only need 'light-on-demand'. Availability of energy usage reports or to be able to manage/maintain multiple sites remotely are key user benefits in industry segment. Furthermore, the production downtime in manufacturing facilities can be costly and a clear need for improved ways of managing maintenance is foreseen.

Opportunity for EasyAir industry sensor

The EasyAir industry sensor SNH200 based on Sensor Ready (SR) platform is a perfect wireless solution to address the market needs in the industry segment. Compared to the existing solutions which are complicated to commission, involve expensive cabling and work with limited temperature environments, EasyAir SNH200 promises to be a one stop easy solution for any industrial application.

Based on the technology of EasyAir SNS200, the industry sensor SNH200 is an easy to integrate, cost effective presence and daylight sensor to significantly help save energy costs. An easy to work with app allows a quick and easy configuration and commissioning process along with the energy readout. Additionally, the advanced grouping and zoning of luminaires leads to enhanced light behaviour on occupancy detection. The EasyAir SNH200 responds very well to the trend of higher ceiling warehouses and seamlessly integrates with the waterproof luminaires commonly used in an industrial setup. Moreover, working with SR based connected lighting system eases monitoring and diagnoses which eventually drives down maintenance costs.

Features

- Works with SR drivers to eliminate power packs and improve cost effectiveness
- Maximize energy savings by presence and daylight sensing
- Advanced lighting control via grouping and zoning of luminaires, using ZigBee mesh
- Quick and easy configuration - in factory using MultiOne/SimpleSet technology and in field via Infrared
- Easy to commission through a user-friendly app, available for free on Google PlayStore as Philips Field Apps
- Energy readout via app or MultiOne
- Ideally suitable for highbay applications; also, suitable for trunking applications via SR Bridge
- High ceiling heights up to 16m,
- IP65 rating to match IP-rating of high bay luminaires; sensor mounted outside of luminaire

- Wide temperature range from -25°C to 65°C to suit various industrial applications
- Releases in Q1 2018

Applications

- Warehouses
- Production facilities
- Assembly areas

EasyAir Outdoor Module SNO100

Market trends and needs in Outdoor segment

Outdoor lighting is all around us and new technologies enables municipalities and facility managers to optimize lighting and dimming schemes during time light is less needed. These customers need to anticipate that surroundings or function of a street or public space can change over the long lifetime of outdoor luminaires. For this they need future proof solutions which covers will cover this and enables that over time fast developing IoT technologies can be used.

Important to realize is that outdoor lighting is covering a very wide area of different applications. The requirements for highways are significantly different with city centers, residential or parking's near shopping malls.

Opportunity for EasyAir SNO100 Sensor

The EasyAir Outdoor module SNO100 based on the universal SR platform is the perfect solution to address the basic market needs in the outdoor segment. The device has a built-in GPS receiver and based on the location, date and time it calculates the exact on-off switching and dimming moments.

The module can be configured without power via SimpleSet (NFC) at assembly or during installation.

For configuration of the EasyAir module an easy to use App can be downloaded on a Smartphone. Via this App all settings can be made including the 5-step DynaDimmer. This accurate DynaDimmer takes also Daylight Saving Time into account and timing can be set within a minute accurate. These features makes this device the ideal solution for those customers who want flexible and configurable controls without complexity.

Because of the SR platform, which consist of a Xitanium SR driver and SR receptacle the module is very easy to integrate in most luminaires. Furthermore, the SR receptacle, standardized via Zhaga book 18, will make luminaires future-proof and can be upgraded to advanced CMS modules if needed.

Features

- Integrated GPS receiver for location and exact time/date
- Automatic switch-on/switch-off at sunset / sunrise
- Accurate DynaDimmer with Daylight Saving Time correction
- Quick and easy Configuration via SimpleSet (NFC) without power during assembly/installing
- Daylight sensor
- Accurate diagnostics, including energy readout via app
- Easy to commission through a user-friendly app, free available on Google PlayStore
- IP66/IK08 rating to match outdoor requirements
- Wide temperature range from -30°C to 60°C for use globally
- Releases in Q1 2018

Applications

- Residential or Urban area,
- City center, Shopping area
- Pedestrian, bicycle roads,
- Squares, Campus, Parking, etc

* Not all features will be available at introduction.

SR Certified program

For the ultimate reassurance of connectivity, Philips has also introduced the SR Certified program, which is a list of all companies, components and sensors that are certified to work with the Xitanium SR LED Driver. It's the seal of approval you need for putting together a connected solution from participating parts suppliers and service providers. The world of connected lighting is growing fast. You can play a role in accelerating its growth.

The SR Certified program is a foundation for successful partnerships. Let's connect.

Outdoor Drivers

Philips Outdoor LED Drivers offer extreme reliability and maximum flexibility, enabling you to get the best out of LED lighting applications.

Xitanium Full Programmable

Outdoor

Philips Xitanium Full Programmable LED Drivers are specifically designed to deliver the highest performance, protection and configurability. The portfolio offers both central and standalone dimming protocols further increasing the energy savings and CO2 reductions achieved with LED lighting. The technology ensures maximum robustness and protection combined with a very long lifetime.

In this product family Philips introduces new drivers in a stretched form factor with state-of-the-art features, which offer high value for both OEM customers and end-users. The products can replace the existing programmable outdoor LED Drivers and will bring significant improvement in programming, assembly into a luminaire and electrical performance. One of the key features is SimpleSet, an easy and fast way to configure the drivers in a production environment, without the need to power the driver.

Features

- SimpleSet, wireless configuration interface
- High surge protection (CM/DM)
- Long lifetime, 50K hours at Tc max
- Robust and protection against moisture, vibration and temperature
- Configurable operating windows (AOC)
- Multiple control interfaces: DALI, LineSwitch, AmpDim
- Autonomous dimming via integrated DynaDimmer
- Suitable for central DC operation (DCemDim)
- Thermal protection for driver and for module (MTP)
- Constant Light Output (CLO)
- Adjustable Start-up Time (AST)
- Adjustable Light Output (ALO)
- End-Of-Life indicator (EOL)

Benefits

- Ultimate robustness, offering peace of mind and lower maintenance costs
- Fully programmable LED Drivers designed for the new digital and connected lighting world
- Extended diagnostics via SimpleSet and MultiOne
- Easy to design-in, configure and install for Class I and Class II applications
- Energy savings through high efficiency and via multiple dimming options

Applications

- Road and street lighting
- Area lighting
- Industry lighting

Xitanium Lite Programmable

Outdoor

Philips Xitanium Lite Programmable LED Drivers are value engineered to deliver a carefully selected feature set and high-end performance, making it a preferred choice for many outdoor applications. The portfolio offers high flexibility with a customizable operating window, enabling differentiation in LED lighting design via system tuning and being prepared for LED efficacy upgrades.

In this product family Philips introduces new drivers in a stretched form factor with a balanced features set, which offer high value for both OEM customers and end-users. The products can replace the existing programmable outdoor LED Drivers and will bring significant improvement in programming, assembly into a luminaire and electrical performance. One of the key features is SimpleSet, an easy and fast way to configure the drivers in a production environment, without the need to power the driver.

Features

- SimpleSet, wireless configuration interface
- High surge protection
- Long lifetime, 50K hours at Tc max
- Robust and protection against moisture, vibration and temperature
- Configurable operating windows (AOC)
- External control interface (1-10V) available
- Autonomous dimming via Integrated DynaDimmer
- Integrated driver thermal protection
- Simplified linear version of Constant Light Output (CLO LITE)

Benefits

- Ultimate robustness, offering peace of mind and lower maintenance costs
- Balanced configurable feature set covering the most common applications
- Easy to design-in, configure and install for Class I and Class II applications
- Energy savings through high efficiency and via multiple dimming options
- Consistent waterproof performance through the lifecycle

Applications

- Road and street lighting
- Area lighting
- Tunnel lighting
- Highbay lighting

Xitanium Adjustable Output Current

Outdoor

Philips Xitanium LV LED Adjustable Output Current Drivers are specifically designed for maximum flexibility and reliability in low voltage outdoor applications. With superior surge protection, these durable, independently housed drivers deliver consistent, high performance to luminaires even after multiple indirect lightning strikes – an ideal solution for OEMs that need reliable, adjustable output in a rugged independent form factor.

Features

- Proven robustness and reliable electronic driver design
- Adjustable Output Current with wide window
- Long lifetime, 50K hours at Tc max, to withstand harsh outdoor conditions
- Compact size, fitting with varied and critical luminaires
- Suitable for Class I isolated luminaires
- Authorized certificate: ENEC, CB, CE and CCC

Benefits

- Low voltage/high current output fits the application of LED strings connecting in parallel
- AOC (Adjustable Output Current) gives the full flexibility to output different currents to spec-in different projects
- Easy adjustment of output current/voltage by only one screwdriver
- Various power wattage drivers that are related to the lumen packages/applications
- Consistent waterproof performance through the lifecycle
- IP rated housing support luminaires without fully sealed gearbox

Applications

- Road and street lighting
- Area and flood lighting
- Tunnel lighting
- High bay lighting

Xitanium Dim Single Current

Outdoor

LED-based light sources are an excellent solution for outdoor environment. They are long-lasting and require low maintenance. However, to get the best out of the LEDs, these light sources require highly reliable and efficient LED Drivers. The new Philips Xitanium Dimmable (1-10V) LED Outdoor Drivers are specifically designed to deliver reliable performance and protection while meeting the strict performance, approbation and application requirements.

Features

- Proven robustness and reliable electronic driver design
- Achieving highest efficiencies based on advance technology
- Long lifetime, 50K hours at Tc max
- Extreme compact size, fitting with varied and critical luminaires
- Suitable for Class I isolated luminaires
- Authorized certificate: ENEC, CB, CE and CCC

Benefits

- Robust design, capable of withstanding harsh outdoor conditions
- Long lifetime and high survival rate
- Superior thermal management suitable for outdoor application
- Backed by 5 year warranty from a company you can trust
- Consistent waterproof performance through the lifecycle
- Proven robustness and reliability secure the lowest luminaire maintenance over time

- Component integration in advanced IC enables cost effective design
- Extreme compact size, fitting with varied luminaires
- Easy to design-in based on the good thermal management and extra EMI margin

Applications

- Road and street lighting
- Area and flood lighting
- Tunnel lighting
- High bay lighting

Xitanium Dim Single Current High Bay Industrial

LED-based light sources are an excellent solution for highbay industrial applications. They are long-lasting and require low maintenance. However, to get the best out of the LEDs, these light sources require highly reliable and efficient LED Drivers. Philips Xitanium Dimmable (1-10V) LED Outdoor Drivers are specifically designed to deliver reliable performance and protection while meeting the strict performance, approbation and application requirements.

Features

- Proven robustness and reliable electronic driver design
- Achieving highest efficiencies based on advanced technology
- Extremely long lifetime, 50K hours at Tc max, fitting with highbay industrial applications
- Independent / IP67 rated
- Dimmable through 1-10V interface
- Suitable for IEC insulation Class I systems
- Authorized certificate: ENEC, CB, CE and CCC

Benefits

- Ultimate robustness and reliability secure the lowest luminaires maintenance overtime
- Best in class, thermal performance withstanding harsh High-bay industry applications
- Consistent waterproof performance throughout the lifecycle
- Easy to design-in based on broad compatibility and superior thermal management
- Backed by 5 year warranty from a company you can trust

Applications

- High bay lighting
- Warehouse lighting
- Big-box retail store lighting

Xitanium Programmable

Point

Our Xitanium programmable window LED drivers ensure OEMs have complete flexibility and control in producing high quality luminaires. Available in application dedicated form factors, our LED point drivers provide further customization via wide operating windows. Additionally, almost all drivers feature the following specifications: SELV, temperature derating, hot wiring, providing OEMs the tools to produce, and even alter later if necessary, premium downlights and spotlights.

Features

- Dali Dimmable
- Output current can be adjusted via the Philips MultiOne or SimpleSet
- +/-5% output current tolerance
- Power range from 10-75W
- 50,000 hours lifetime

Benefits

- Drivers designed based on Philips experience and knowledge in conventional fluorescent and HID technologies
- High reliability underpinned by 5 year warranty
- Future-proof flexibility: application-oriented operating windows enable LED generation and complexity management
- Compatibility: can also be used for other manufacturers' modules or OEM's own PCB designs

Applications

- Downlight
- Track light
- Spotlight

Xitanium Adjustable Output Current (WH Family)

Point

Our Xitanium programmable window LED drivers ensure OEMs have complete flexibility and control in producing high quality luminaires. Available in application dedicated form factors, our LED point drivers provide further customization via wide operating windows. Additionally, almost all drivers feature the following specifications: SELV, temperature derating, hot wiring, providing OEMs the tools to produce, and even alter later if necessary, premium downlights and spotlights.

Features

- Adjustable output current via SimpleSet
- +/-5% output current tolerance
- Low ripple current <=4%
- 50,000 hours lifetime

Benefits

- Drivers designed based on Philips experience and knowledge in conventional fluorescent and HID technologies
- High reliability underpinned by 5 year warranty
- Future-proof flexibility: application-oriented operating windows enable LED generation and complexity management
- Compatibility: can also be used for other manufacturers' modules or OEM's own PCB designs

Applications

- Downlight
- Track light
- Spotlight

Xitanium Adjustable Output Current (Mini Family) Point

Xitanium Mini driver have the same form of conventional HID-Prima vision driver which is widely used in downlight and spot light. The output current can be adjusted by Rset which give OEMs much design flexibility.

Features

- Adjustable output current via Rset or SimpleSet
- HID-Prima vision mini form with small size
- +/-5% output current tolerance
- Low ripple current <=4%
- THD<=20%
- 50,000 hours lifetime

Benefits

- Drivers designed based on Philips experience and knowledge in conventional fluorescent and HID technologies
- Different current output set by Rset give high flexibility to OEMs
- Very small size which is easy to be designed in luminaires
- Resolve flickering issue in certain applications

Applications

- Downlight
- Track light
- Spotlight

Xitanium Single Current (Mini Family) Point

Xitanium Mini Driver have the same form of conventional HID-Prima vision driver which is widely used in downlight and spotlight. The product range is the most affordable small size driver within the Mini family.

Features

- HID-Prima vision mini form with small size
- +/-8% output current tolerance
- Low ripple current <=4%
- THD<=20%
- 50,000 hours lifetime

Benefits

- Drivers designed based on Philips experience and knowledge in conventional fluorescent and HID technologies
- Very small size which is easy to be designed in luminaires
- Resolve flickering issue in certain applications

Applications

- Downlight
- Track light
- Spotlight

Xitanium Single Current

Point

This range provides an affordable selection of point drivers which have 50,000 hours lifetime. The driver specially addresses the flickering issues by low ripple current, making this ideal for camera operation.

Features

- Small, compact dimensions
- Specific, optimized output current and voltage
- Selectable output current of 27W to 64W
- 4KV/2KV surge of 50W/59W/64W
- Low ripple current <=3%
- THD<=15%
- 50,000 hours lifetime

Benefits

- Drivers designed based on Philips experience and knowledge in conventional fluorescent and HID technologies
- Various power wattage drivers that are related to the lumen packages/ applications
- Independent version housing design for stand-alone installations
- Resolve flickering issue in certain applications

Applications

- Downlight
- Track light
- Spotlight
- Panel light

Xitanium Single Current TE

Point

This range provides an affordable selection of point drivers which have 50,000 hours lifetime. The driver provide trailing-edge dimmable features which is popular dimming method.

Features

- Small, compact dimensions
- +/-5% output current tolerance
- THD<=20%
- 50,000 hours lifetime

Benefits

- Drivers designed based on Philips experience and knowledge in conventional fluorescent and HID technologies
- Various power wattage drivers that are related to the lumen packages/ applications
- Independent version housing design for stand-alone installations
- Very small size which is easy to be designed in luminare

Applications

- Downlight
- Track light
- Spotlight

CertaDrive Single Current Gen2

Point

These fixed current drivers offer an easy to use solution for essential spot, downlight and panel light applications. The CertaDrive range is designed to meet the market needs for basic lighting. They are therefore ideal for high volume applications and can be used with different type LED light engines. These driver are optimized for Chip On Board (COB) LED technology and are available in a variety of wattages.

Features

- High reliability
- Luminaire design flexibility to keep stable/constant
- Lumen output and light quality levels
- Fast Time to Market
- One supplier for professional general lighting LED Drivers
- Affordable LED Drivers
- +/- 8% output current tolerance on 2nd generation
- 30,000 hours life time

Benefits

- Drivers designed based on Philips experience and knowledge in conventional fluorescent and HID technologies
- Various power wattage drivers that are related to the lumen packages/ applications
- Fixed output drivers
- Independent version housing design for stand-alone installations

Applications

- Downlight
- Track light
- Spotlight

CertaDrive Single Current (LPF Family)

Point

These fixed current drivers offer an easy to use solution for essential spot, downlight applications. The CertaDrive LPF range is designed to meet the market needs for basic lighting. They are therefore ideal for high volume applications and can be used with different type LED light engines. These drivers have very small size and are optimized for low power factor application.

Features

- High reliability
- Luminaire design flexibility to keep stable/constant
- Lumen output and light quality levels
- Fast Time to Market
- Low power factor
- Affordable LED Drivers
- +/- 10% output current tolerance
- 30,000 hours life time

Benefits

- Drivers designed based on Philips experience and knowledge in conventional fluorescent and HID technologies
- Various power wattage drivers that are related to the lumen packages/ applications
- Fixed output drivers
- Independent version housing design for stand-alone installations

Applications

- Downlight
- Track light
- Spotlight

TrustSight LED Emergency Systems Point/Downlight

Point

The new Philips TrustSight LED Emergency Systems are designed for your security. Philips LED TrustSight solutions are designed to operate LED luminaires on battery power when mains voltage is failing. In that case the LED Emergency Driver immediately switches to battery mode and takes over the function of the standard LED Driver.

Features

- Integrated automatic self-test
- Conditioned automatic discharge of batteries
- Specially developed batteries for emergency lighting
- EU compliance
- 70,000 hours lifetime

Benefits

- Dedicated solutions for linear applications
- Significantly smaller housing sizes
- Genuine 21mm linear driver height
- Forward voltage window suits new generation of LED boards
- Easy to install via automatic current-setting and battery selection
- 5 year warranty

Applications

- Office buildings
- Public buildings (airports, cinemas, theaters, exhibition halls)
- Retail (fashion, supermarkets, DIY)

E Entry	No	No	No	No	30,000-50,000

Xitanium Programmable

Linear

Xitanium LED Drivers are designed to operate LED solutions for professional general lighting applications, with non-isolated and isolated drivers to support HV and LV linear systems. Flexibility in luminaire design is assured thanks to an adjustable output current. Application-oriented operating windows offer the flexibility required to provide the stable lumen output and light quality levels that lighting specifiers and architects demand. Reliability is enhanced by specific features that protect the connected LED Module, e.g. hot wiring, reduced ripple current and thermal de-rating. With Xitanium Programmable Indoor Linear Drivers, it supports light point management and is programmable for all your needs.

Features

- DALI dimming and programmable
- Isolated (low voltage) and non-isolated (high voltage) versions available
- Operating windows - output current can be adjusted via SimpleSet and the Philips MultiOne Configurator (for all TD Drivers) or with a resistor outside the driver
- Reduced ripple current and thermal de-rating for increased reliability
- iXt LED-Drivers have a Longer life time (100khrs), improved surge and burst (4kV) and Tambient (-40°C to +60°C) specifications
- Central DC operation supported
- Low profile, height down to 16mm for non-isolated drivers

Benefits

- High voltage systems for up to 95% high efficiency, lowest cost and smallest dimensions
- Low voltage systems involve simpler approbation process and ease of design-in
- High reliability underpinned by 5 year warranty
- Future-proof flexibility – application-oriented operating windows enable LED generation and complexity management
- Compatibility – adjustable output current enables operation of various LED solutions from different manufacturers or OEM own designs
- Low ripple for camera and scanner friendly operation

- More robust LED Drivers for industry applications
- Flicker and noise free dimming with all Touch and DALI LED Drivers due to amplitude dimming (AM)
- Low profile drivers enabling greater luminaire design freedom

Applications

- Office
- Industry
- Retail
- Public buildings (airports, cinemas, theatres, exhibition halls), distribution centers and shopping malls

Xitanium Adjustable Output Current

Linear

Xitanium LED Drivers are designed to operate LED solutions for professional general lighting applications, with non-isolated and isolated drivers to support HV and LV linear systems. With Xitanium LED Drivers, flexibility in luminaire design is assured thanks to an adjustable output current. Application-oriented operating windows offer the flexibility required to provide the stable lumen output and light quality levels that lighting specifiers and architects demand. Reliability is enhanced by specific features that protect the connected LED Module, e.g. hot wiring, reduced ripple current and thermal de-rating.

Features

- Multiple versions – 1-10V dimmable and fixed output, non-isolated and isolated available
- Adjustable Output Current via a resistor outside the driver or SimpleSet tools
- Reduced ripple current and thermal de-rating for increased reliability
- iXt LED-Drivers have a Longer life time (100khrs), improved surge and burst (4kV) and Tambient (-40°C to +60°C) specifications
- Central DC operation supported
- Low profile, height down to 16mm for non-isolated drivers

Benefits

- High voltage systems for up to 95% high efficiency, lowest cost and smallest dimensions
- Low voltage systems involve simpler approbation process and ease of design-in
- High reliability underpinned by 5 year warranty
- Future-proof flexibility – application-oriented operating windows enable LED generation and complexity management
- Low ripple for camera and scanner friendly operation

- Compatibility – adjustable output current enables operation of various LED solutions from different manufacturers or OEM own designs
- Low profile drivers enabling greater luminaire design freedom

Applications

- Office
- Industry
- Retail
- Public buildings (airports, cinemas, theatres, exhibition halls), distribution centers and shopping malls

Xitanium Single Current

Linear

Xitanium LED Drivers with single current output offer industry leading performance and reliability at optimized cost. They are ideal for high volume applications where performance specification is key. These drivers guarantee OEM makers Xitanium performance and Philips reliability but with standard current settings.

Features

- Low output current tolerance
- High efficiency
- Small dimensions
- Reduced ripple currents
- Specific current and voltage
- 50,000 to 100,000 hours long lifetime

Benefits

- High voltage systems for highest efficiency and lowest cost
- Low voltage systems involve simpler approbation process and ease of design-in
- High reliability underpinned by 5 year warranty
- Easy design-in with specific output current settings
- Low profile drivers enabling greater luminaire design freedom
- Low ripple for camera and video friendly operation

Applications

- Office
- Industry
- Retail
- Public buildings (airports, cinemas, theatres, exhibition halls), distribution centers and shopping malls

CertaDrive Single Current

Linear

CertaDrive LED Drivers are designed to fulfill the market needs for essential lighting. They are therefore ideal for high volume applications and can be used with CertaFlux LED Modules, or other LED light engines. These drivers offer basic specifications such as specific current and voltage settings, with lifetime of the driver set up to 50,000 hours.

Features

- High efficiency
- Small dimensions
- Specific current and voltage
- Fast time-to-market
- 30,000 to 50,000 hours lifetime

Benefits

- High voltage systems for high efficiency, lowest cost and small dimensions
- Low voltage systems involve simpler approbation process and ease of design-in
- Various power/wattage combination which is easy to design
- Low profile drivers enabling greater luminaire design freedom
- Optimized to operate CertaFlux LED Modules
- 3 years warranty

Applications

- Recessed, surface and suspended luminaires in offices
- Waterproof luminaires and high bay luminaires for industry applications
- Trunking in retail applications

TrustSight LED Emergency Systems

Linear

The new Philips TrustSight LED Emergency Systems are designed for your security. Philips LED TrustSight solutions are designed to operate LED luminaires on battery power when mains voltage is failing. In that case the LED Emergency Driver immediately switches to battery mode and takes over the function of the standard LED Driver.

Features

- Integrated automatic self-test
- Conditioned automatic discharge of batteries
- Specially developed batteries for emergency lighting
- EU compliance
- 70,000 hours lifetime

Benefits

- Dedicated solutions for linear applications
- Significantly smaller housing sizes
- Genuine 21mm linear driver height
- Forward voltage window suits new generation of LED boards
- Easy to install via automatic current-setting and battery selection
- 5 year warranty

Applications

- Office buildings
- Public buildings (airports, cinemas, theaters, exhibition halls)
- Retail (fashion, supermarkets, DIY)

Performance

Transformer

LED Transformer range are designed to replace switching power supply (non lighting standard product) in matching constant voltage LED Strips in indoor application, therefore upgrade total lighting quality.

Dimmable LED Transformer range are designed to meet the market needs for dimming in specific application

Features

- High frequency
- Compact size
- SELV compliant
- Safety protections including overload protection and short circuit protection
- Lifetime 30,000 hours
- Phase cut dimming function for 75W & 150W

Benefits

- Optimal performance thanks to the dedicated LED solution
- Safe operation
- Installation friendly, Class II and independent
- 3 years warranty
- CCC, CE, CB certificate

Applications

- Hotel, Partially light the space, Living rooms, Corridors
- Retail & Shopping Mall, Cabinet or shelf lighting
- Restaurant, Enhance the ambience, create the mood
- Decoration, Create space and layers, light sculpture

MultiOne configurator

The demands from customers for flexibility and diversity are fast increasing in multi-folds. This is the reason why Philips has introduced simplified tools which allow you to easily configure your drivers for ease of use.

The universal Philips MultiOne configurator is a tool you can use with any Philips programmable driver and configure the functions in your lighting solutions for any application. It has become a must-have in all applications where the lighting system needs to match specific requirements.

Features

- For use with all Philips LED, fluorescent and HID programmable drivers
- Suitable for standard Windows computers with USB connection
- Different interfaces depending on the installation
- Enables optimization of installation, last minute changes, easy diagnostics and maintenance

Benefits

- One tool for all Philips configurable drivers, both for conventional and LED Systems
- Flexibility for OEM providing access to the features built into the driver
- Optimized for use in the production process
- Unique tool that combines configuration with diagnostics

Applications

- General lighting
- Retail lighting
- Outdoor lighting
- Office lighting

The MultiOne configurator consists of two building blocks

1 MultiOne Interface tool

LCN8600/00 MultiOne Interface USB2DALI

The interface that can be used with the MultiOne PC software to commission, configure, diagnose drivers via the DALI Interface.

LCN9610 or LCN9620 MultiOne SimpleSet Interface

The tools can be used with the MultiOne PC software to configure drivers wireless using SimpleSet® Technology.

Product specifications

Product type	Order code
LCN8600/00 MultiOne Interface USB2DALI	9137 003 46703
LCN8650/10 MultiOne Interface USB2ZigBee	9137 003 59203
LCN 9610 MultiOne Interface SimpleSet®	9290 009 99400
LCN 9620 MultiOne Interface SimpleSet®	9290 009 99500

2 MultiOne Software

Supporting MultiOne Software

to be installed on a PC, laptop or production work station.

System requirements:

- Windows PC or laptop
- Microsoft windows 7, 8.0, 8.1 (support of Windows XP will stop in end 2015)
- USB 2.0 ports (Two free ports preferred)
- Min 35 MB of free disk space
- Microsoft .NET Framework 3.5 SP1

Free download

Find out more about MultiOne software via www.philips.com/multiOne

Philips MultiOne configurator

All programmable Outdoor, Indoor (Linear and Point) LED Systems can be configured with the MultiOne configurator. Also all existing programmable conventional Philips Systems, HID and FLUO can be configured with the same tool. Using the unique tool along with the installation of the software makes flexibility come alive, providing you with access to all features built in within the driver.

The MultiOne configurator software is free and downloadable from our website. It consists of:

1. MultiOne Engineering

Specially developed to access all functionalities of the driver; to configure, diagnose and prepare the configuration file for the production environment.

Also includes:

- DALI commands, scheduler
- SimpleSet®

2. MultiOne Workflow

Developed to configure all devices or subassemblies in the production environment in a simple and quick way.

Depending on the type of driver, a combination of features can be configured. With these features, one can create diversity (e.g. Adjustable Light Output and Adjustable Output Current), but also extra security (e.g. Module temperature protection and DC emergency), including costdown improvements (e.g. Constant light output, Dynadimmer and Corridor mode).

Detailed explanations of each feature and how to configure, are available in the instruction manual on our website.

LED spot

Light quality and reliability is vital for hospitality, retail segment. Quality light provides right ambience and light effect needed for space. Low maintenance means lowered operating costs and no business disruption, making sure customers are happy and keep coming back.

Master LED MR16 ExpertColor

Spot

Master ExpertColor LED MR16 creates a warm and comfortable ambience for hospitality venues, homes and restaurants. It creates such an ambience with superior lighting that has a customized spectrum, high CRI, and deep dimming feature. The result? A beautiful lighting experience. The innovative, trimless lens design will also suit almost any interior decor with its clean and neat look. The Master ExpertColor LED MR16 is well designed and robust, offering a variety of beam angles to manage a clearly defined beam spread suitable across various applications. There is no UV or IR in the beam, making it suitable for illuminating heat-sensitive objects (food, organic materials, paintings, etc.). The patented intelligent driver enables broad compatibility with existing electromagnetic and electronic halogen transformers

Features

- Customized color spectrum replicates halogen light color
- Deep and smooth dimming
- Best-in-class color realization, CRI97
- Innovative, trimless design with V-groove lens
- Lifetime of 40,000 hours

Benefits

- Warm, comfortable ambience
- Dim to the right level
- Furnishings and fabrics look great
- creates integrated look with minimal design to suit every application
- Efficient and sustainable, up to 85% energy savings compared to halogen lamp
- Broad compatibility with transformers
- Hassle-free retrofit solution, Retrofits into vast majority of GU5.3 based fixtures & E210 based fixtures

Applications

- Hospitality: hotel guest room, corridors, lobby, reception area, restaurants, bars, cafes
- Home: living room, bedrooms, hall way
- Retail: exhibitions, display cabinets, shops, dressing rooms
- Perfect for hospitality suites and guest rooms requiring adjustable settings

ExpertColor

Experience perfect color with our new LED technology

The ExpertColor technology offers superb light quality with **best-inclass color realization**. The advanced phosphor technology provides high color fidelity with a **color rendering index of 97**, enhanced rendering of reds (**R9 >85**). So you can bring out the true colors in furnishings and interior decors to add even more appeal.

MASTER LED MR16 ExpertColor features an optimized light spectrum to create a warm ambience that until now was only possible with traditional halogen lamps.

ExpertColor replicates halogen light color. ExpertColor offers **93.9%** close to halogen light color, standard LED offers around 60%.

Master LED MR16

Spot

Delivering intense accent beam, MASTER LED MR16 is an ideal retrofit solution for spot light. Thanks to its high CRI, it realize more natural colors, enabling cozy and comfortable ambience for residential, hospitality and emphasize the beauty of merchandise in retail. MASTER LED MR16 is compatible with most existing fixtures with a MR16 GU 5.3 holder and designed as a retrofit replacement for halogen or incandescent spots. Not only it employ Philips' patented solution to guarantee the broadest possible compatibility with standard 12V halogen electronic transformers, it also delivers high beam intensity which equivalent to halogen MR16 spots. The dimming function enables to create the desired atmosphere and it works with broad selection of dimmers. MASTER LED MR16 delivers huge energy savings and minimizes maintenance cost without any compromise on brightness, enabling residential owners and business owners to achieve a return on their investment within short period time with its efficiency energy use and long life time. There is no UV or IR in the beam, making it suitable for illuminating heat-sensitive objects (food, organic materials, paintings, etc.).

Features

- Dimmable (7W and 8W versions)
- Patented intelligent driver
- Air movement mechanism
- Lifetime of 25,000~40,000 hours
- CRI80~90

Benefits

- High intensity of beam equivalent to halogen spots
- Better color realization with high CRI value

- Clearly defined beam spread for accent lighting
- Compatible with an extensive range of transformers and smooth dimming for dimmable products
- High lumen maintenance with long lifetime
- Up to 80% energy savings compared to halogen lamp
- Can be retrofitted with low-voltage MR16 halogen lamps with GU5.3 sockets

Applications

- Ideal for accent lighting in hotels, hospitals, shops and museums (e.g. floors, elevators, displays)
- Dimmable versions are perfect for hospitality suites and guest rooms requiring adjustable settings

Master LED MR11

Spot

Philips 12V MR11 LED lamps is the latest product in series of low voltage (12VAC), Halogen MR11 replacement.

Features

- Clearly defined beam spread
- UV and IR free light

Benefits

- Up to 80% energy savings compared to a 20W halogen MR11
- Long lifetime of 15,000-40,000 hours
- Retrofit into a vast majority of luminaires with GU4 sockets
- Good for heat sensitive objects like organic, food, leather goods, paintings

Applications

- Hospitality: hotel, restaurant, café, bar
- Retail: display cabinet, museum
- Home: kitchen, wardrobe, cabinet, etc.

ET-Standard Transformer

Spot

High-frequency and long lifetime electronic transformer specially design for 12VAC LED lamps with EMC compliance.

Features

- High frequency
- Compact size
- SELV compliant
- Safety protections including overload protection and short circuit protection
- Lifetime 40,000 hours
- Phase cut dimming function for Master MR16 DIM LED lamps

Benefits

- Optimal performance thanks to the dedicated LED solution
- Safe operation
- Installation friendly, Class II and independent
- 4 years warranty
- CCC, CE, CB, RCM, TIS certificate

Applications

- Hotel, Partially light the space, rooms, washroom, cooridor, stairway, lobby, reception areas, conference rooms and event rooms
- Retail Shops and restaurant

High Lumen MR16

Spot

Philips high lumen LED MR16 brings out the true beauty of the merchandise by intense light with small form factor. It provides the right light to emphasize the merchandise and create bright and refreshing shopping environment. Not only its superior light quality, its innovative, trim-less V-groove lens will suit any kind of store interior without creating techy look. It is a hasslefree retrofit solution. It fits most of luminaires to make re-lamping and renovation projects as easy as possible.

Features

- High lumen output
- Strong punch effect in light beam
- Trimless design with V-groove lens
- Strong color maintenance and lumen maintenance
- Dimmable with dimmable driver use
- High efficiency with 50,000 hr lifetime
- Retrofit
- No UV and Cool Beam(no IR)

Benefits

- Emphasize merchandise display with strong intensive light
- Trimless design enables integrated look with luminaires to suit any kind of store interior style
- Strong performance of color realization and light effect stays over time
- Working with dimmable LED driver to enable dimmability
- Hassle free retrofit solution with GU5.3 luminaires
- Safe for illuminating heat-sensitive objects (food, organic materials, paintings, etc.)

Applications

- Retail stores: Fashion retail, Cosmetics retail, Jewelry
- Store's display area. Window display area, dressing
- Rooms
- Museum: display area for artworks
- Exhibition

* CRI90 version will be launched in 2018 Q2, final spec has not fixed yet.

LED tube

A perfect tube with a perfectly uniform visual appearance delivering superior performance, far more outstanding than the traditional fluorescent.

LED PLC

Tube

LED PLC is a downlighting lamp replacement that delivers incredible energy savings thanks to energy efficient LED core, 30,000 hours lifetime. A retrofit lamp that's simple to install, fit most of EM ballast fixtures and requires less maintenance and servicing. So you can downsize your downlighting costs with energy efficient LED.

Features

- To ensure maximum compatibility with existing luminaires, directional PLC LED often need to be adjusted towards where light is needed most. That's why Philips PLC LED products have this feature. It allows the PLC LED to be easily rotated up to 90 degrees, giving you the freedom to direct the light to best effect

Benefits

- High Output for high efficiency - designed to comply with key industry standards
- Reliable operation between 20°C to 35°C ambient temperature
- Rated average life of 30,000 hours
- 50,000 switching cycles

Applications

- Hallways
- Meeting Rooms
- Reception
- Staircases
- Restrooms

Sensor LEDtube

Tube

Philips Sesor LEDtube is a reliable value-for-money LED lamp out of Philips Lighting portfolio, incorporated with frontier LED chips and other advanced technologies. The product helps customers to achieve over 60% energy savings and significant maintenance cost reduction by comparing to fluorescent lighting effect, and to build up green and environmental friendly image for our customers.

Features

- Integrated microwave sensor in LEDtube to provide extra 80% energy saving
- Wider beam angle for diffuse light effect in basic type of luminaires like bare batten or closed luminaires
- Enhanced efficiency (from 110 to 115 lm/W)
- CRI 80

Benefits

- Reliable operation between -20°C to 45°C ambient temperature
- 50,000 switching cycles
- Energy savings over 60%
- No mercury

Applications

- Offices
- Parking Lots
- Warehouses

LED candle and lustre

Designed to enhance the aesthetic appeal of chandeliers and luminaires, these bulbs come in classical form factors with unique eye-catching lens design for the extra sparkle.

Master LEDcandle DimTone

Candle and lustre

Specially developed for chandeliers, we've upgraded our Master LEDcandle lamps to enhance the decorative and aesthetic appeal of luminaires – whether they are switched on or off. The new candles incorporate a revolutionary new shaped lens that allows the optics to radiate brilliant, clear and sparkling white LED light. The improved light quality provides consistent colour from every angle – even when dimmed in the most intimate of ambiances. What's more, the new ivory lamp colour is the perfect match for existing luminaires. The classic slender shape when used in multiple quantities will ensure the whole luminaire lights up brilliantly.

Features

- With DimTone technology
- Revolutionary new lens design
- Lifetime of 25,000 hours
- Retrofittable with existing E14 or B22 sockets
- Available in 25 W and 40 W

Benefits

- Sparkling white LED light
- Low energy consumption
- Dimmable, saving more energy

Applications

- Hotels, restaurants, bars, cafés
- Wall sconce or modern luminaire

Master LEDlustre DimTone

Candle and lustre

A new shape developed for chandeliers or open luminaires, the LEDlustre DimTone range gives off light all around due to its clear bulb head, enhancing the decorative appeal of all luminaires. The creatively shaped lens allow the optics to radiate brilliant, clear and sparkling white LED light that yet releases minimal heat. The improved light quality is beautiful, suitable for a variety of luminaires and open cords used often in hotels, F&B chains and in retail.

Features

- With DimTone technology
- Revolutionary new lens design
- Lifetime of 25,000 hours
- Retrofittable with existing E14 and E27 holders
- Available in 25 W and 40 W

Benefits

- Sparkling white LED light
- Low energy consumption
- Dimmable, saving more energy

Applications

- Hotels, restaurants, bars, cafés
- Chandelier, open luminaire, or glass luminaire

LED **HID**

Philips TrueForce LED lamps provide an easy LED solution with a fast payback to replace High-Intensity Discharge (HID) lamps. These lamps bring the energy efficiency and long lifetime benefits of LED to HID replacement, with a low initial investment delivering instant savings. With the right lamp size and light distribution, customers can easily retrofit TrueForce LED lamps into their existing system, thereby enhancing the light quality without having to change the fixtures or sacrifice the light effect.

TrueForce LED HighBay

HID

Philips TrueForce LED Industrial and Retail (Highbay – HPI/SON/HPL) lamps give you a quick and easy payback solution to replace HID lamps in Highbay application. The solution gives you the LED benefits of energy-efficiency and long-lifetime, plus they come for a low initial investment. Lamp design allows retrofit HID lamps with TrueForce LED lamps with no gear loss and high power factor. Multiple beam angle options and high colour rendering index enhance the lighting distribution while creating a comfortable, safe and high productivity environment.

Features

- High energy efficiency with directional light and no gear loss
- Long lifetime 25,000hrs
- Direct lamp replacement solution with high power factor
- 2 beam angles selection
- Pleasant white light with CRI 80

Benefits

- Cost saving with quick payback
- Easy adoption
- Low initial investment

Applications

- Industrial - Factories, Warehouses, Distribution centres
- Retail - Hyper markets, Shopping malls
- Others - Transportation hubs, Convention centres, Sports halls

TrueForce LED Public

HID

Philips TrueForce LED Public lamps provide an easy LED solution with a fast payback to replace High-Intensity Discharge (HID) lamps. These lamps bring the energy efficiency and long lifetime benefits of LED to HID replacement, with a low initial investment delivering instant savings. With the right lamp size and light distribution, customers can easily retrofit TrueForce LED lamps into their existing system, thereby enhancing the light quality without having to change the fixtures or sacrifice the light effect.

Features

- High energy efficiency
- Long lifetime 50,000hrs
- Same/right lamp size and lighting distribution for direct retrofit
- Direct LED replacement solution without changing the fixture
- Pleasant white light with CRI 70

Benefits

- Cost saving with short payback time
- Low initial investment
- Enhance lighting quality with easy adoption

Applications

- Public Urban - Streets, Parks, Squares
- Public Road/Area - Streets, Area

LED bulb

We started the journey 125 years ago. And we are more determined than ever to challenge the convention, improving the technology and how it illuminates our world.

Entry range LED bulb

Bulb

Our Philips signature entry-level LED bulb provides an instant-on, retrofit lighting solution, perfect for use in large volumes across multiple application areas. It delivers energy savings, reduces the need for regular bulb replacement, without compromising on the quality of your warm or white light. Available in E27 lamp base, and two color temperatures. Comfortable to the eye with minimal glare.

Features

- Instant start
- Simple replacement with existing sockets and fixtures
- Manufactured without any hazardous materials, making them a safe and sustainable choice

Benefits

- Minimal heat, and comfort to the eye
- No UV and IR, safe for fabric and light sensitive materials
- Easy retrofit
- Long lifetime of up to 15 years, reducing the need for maintenance

Applications

- Shops, hotels, restaurants, bars, cafés
- Galleries, museums, exhibitions, lobbies, corridors, stairwells, wash rooms, reception areas

WarmGlow Dim Bulb

Bulb

Philips LEDbulb WarmGlow Dimmable deliver high quality light to ensure direct replacement of GLS bulbs in indoor application. The beam of light is free of infra-red meaning no heat is radiated, and no ultra-violet light means that fabric and items under this light won't fade.

Features

- Reliable operation between -20 °C to 45 °C ambient temperature
- Rated average life of 15,000 hours (tested to B50 L70 requirement)
- 50,000 switching cycles

Benefits

- GLS dimming lighting effect
- No Visible flickering
- No UV/IR
- Light all around

Applications

- Shops, hotels, restaurants, bars, cafés
- Galleries, museums, exhibitions, lobbies, corridors, stairwells, wash rooms, reception areas

Philips LEDstick

Bulb

Philips LEDstick deliver high quality light in a compact design ideal for downlights and slim luminaire applications. The compact and bright light makes it ideal for general lighting applications in the retail and hospitality industry by offering their guests a differentiating ambiance and unique experience in public areas.

Features

- All around illumination
- Up to 70% less glare*
- No visible flickering
- Eye safety of lamps compliance**

Benefits

- Over 85% energy savings
- Last up to 15 years
- Environmental friendly, no Mercury
- Low Carbon Footprint

Applications

- Elite shops
- Corridors / Stairways / Washrooms
- Lobby / Reception areas
- Hotel rooms / Bars
- Home

 ** Compliance with IEC62471 photobiological safety of lamps and lamps systems.

Master LEDBulb Dimtone

Bulb

The Master LEDBulb DimTone range delivers a dimmable glow effect for a welcoming, warm atmosphere, making it ideal for general lighting applications in the hospitality segment. Its unique design radiates warm light all around, making it a bright and energy efficient alternative to the incandescent lamp. They are particularly suitable for public areas such as lobbies, corridors, stairwells, where the light is always on. Compatible with existing fixtures with E27 or B22 holder, they are designed for retrofit replacement of incandescent bulbs. Master LEDBulb DimTone delivers huge energy savings and minimizes maintenance cost without any compromise on light quality. They can be used together with most leading-edge dimmers, enabling further efficiencies while helping to create the desired atmosphere.

Features

- Dimmable
- Compatible with an extensive range of dimmers
- Warm white light
- Lifetime of 25,000 hours
- UV- and IR-free light

Benefits

- Up to 80% energy savings compared to traditional incandescent lamps
- Easy (retrofit) replacement
- Lower maintenance costS

Applications

- Hotels, restaurants, bars, cafés
- Lobbies, corridors, stairwells, reception areas

LED Deco Classic

Bulb

LED Deco Classic is the perfect LED filament bulb looking like the tungsten classic, yet giving you an estimated energy savings of 90%. It sets off beautiful, decorative, warm light in a variety of bulb shapes from the standard to the tall/balloon shape giving off a brighter and more defined, warm glow. The LED Deco Classic is ideal for installation in a variety of fixtures whether exposed or within glass shades. The bulb itself is an art form, working perfectly with modern or classic chandeliers, wall sconces and open fixtures.

Features

- A classic bulb with a modern LED twist
- Timeless shape with hardy strands of LED filament
- Available in multiple wattages

Benefits

- Energy savings estimated around 90%
- Long lifetime, unlike the old incandescent
- Instant on, little heat
- Environmentally friendly, contains no mercury

Applications

- Home: living room, bedroom
- Hospitality: restaurants, cafe and bars, hotel lobbies and guest rooms

Scene Switch LED bulb

Bulb

The Scene Switch bulb is a revolutionary bulb that truly surprises by giving out not one but two color temperatures within a single E27 bulb form. It allows spaces to be personalized for ease and comfort by using the existing wall switch with no need of re-wiring, to simply toggle the light color from warm white at 3000K to cool daylight at 6500K at your finger tips. The result is a uniformly lit bulb that delivers glare-free light that is easy on the eyes. A hassle-free retrofit that turns on instantly, adding flexibility and more value to any luminaire with an E27 base.

Features

- Retrofit bulb with an E27 base
- 806 lumen, CCT 3000K/6500K
- CRI 80
- Lifetime 15000 hours

Benefits

- Warm white and cool day light, switchable instantly
- Unique bulb shape that gives light all around
- No hazardous material
- Versatile for all spaces

Applications

- Homes, offices and cafés
- Hotel guest rooms, spa
- Modern or classical luminaires
- Wall sconces, open fixtures

High Lumen LEDBulb

Bulb

High lumen LED Bulb in indoor application, even designed for a wide range of applications including damp areas. Under 220-240V, the product can deliver the best performance. And even under 90V, the bulb can be lit up, which makes it work in some unstable line voltage. LEDbulb offers up to 89% energy saving when replacing GLS and 50% when replacing a CFLi. It also has a longer lifetime of 15,000 hours (equivalent to 15years if lit 2.7 hours per day across 365 days) conditions.

Features

- Form factor is designed as a direct retrofit into high lumen LED bulbs at A75, A95, A110 and A125 shape
- Rugged plastic design

Benefits

- Long lifetime of 15,000 hours (F50L70)
- Up to 89% energy savings when replacing a GLS (50% when replacing a CFLi)
- Designed for a wide range of applications including damp areas
- Lit up under 90V line voltage. And best performance is delivered under 220V-240V

Applications

- Logic center
- Factory
- Car parking
- Convenience store
- Public space
- Garden lighting
- Wet market

LED Deco Classic

A well-loved classic with a modern LED twist

Retro and classy, yet it saves you a good 90% in energy consumption. Perfect for decorative lighting for hotels, restaurants and other creative spaces, this is the answer to a final replacement of the incandescent or tungsten equivalent. The long, elegant yet hardy strands of LED filaments gives out refined and defined warm light that cannot be distinguished from the traditional bulbs.

Application notes:

- Operating temperatures: -20°C to 40°C ambient
- Designed for indoor application only
- Not intended for use as exit lights/emergency lights
- For indoor application in open luminaires/fixtures

Legend technical specifications	Symbol	Definition
Backwards compatible		Workable with an older product or technology
Beam angle	(°)	Exit angle of the light beam
Central beam candela		Power emitted by a light source in a particular direction. A common candle emits light with a luminous intensity of roughly one candela
Chip on board	COB	Refers to the semiconductor assembly technology where the microchip or die is directly mounted on and electrically connected to its final circuit board, instead of undergoing traditional assembly or packaging as an individual IC.
Correlated color temperature	K	CCT; describes whether white light appears warm (reddish), neutral or cool (bluish)
Color rendering index	Ra	CRI; the ability to reproduce the colors of various objects faithfully in reference to an ideal light source
Color consistency (initial)	SDCM	Standard Deviation of color-matching; describing the difference between two colors. E.g. a difference of 1-3 SDCM is virtually imperceptible; a difference of 4 or more is readily visible
Dimmable average lifetime 10% failure	hrs	Lifetime in hours, defined by reaching 10% failures (ie. 90% survivors) when dimmed
Dimming range	%	Dimming range in which the system will perform as specified
Driver power factor	%	Indicating how effective the driver converts electric current to useful power output
Efficiency range max load		Efficiency when operating at maximum power (non-dimmed)
EOC code		European Order Code
Frequency	Hz	The number of oscillations in one second. Measured in Hertz (Hz).
Housing color		Color of housing
Input Voltage	V	Voltage required as input for the product
IP Classification		Ingress protection defined in terms of object size and water beam protected against
Inrush current peak		The highest current at which the capacitive components operate
Lifetime	hrs	Lifetime in hours, associated with specific conditions (e.g. lumen maintenance, Tc, failure)
Lifetime 10% failure	hrs	Lifetime in hours, defined by reaching 10% failures (ie. 90% survivors) for a population
Light output	lm	Output of luminous flux
Lumen maintenance @ 50 k hrs	%	% of the original lumen flux remaining after indicated (life-)time for a defined population; e.g. B50/L70 indicates 50% of the population retaining 70% of the original light output
Luminous Flux	lm	Total energy emitted by a light source across the visible wavelengths of light
Module efficacy	lm/W	Efficiency module; lumen output per watt input
Module power	W	Energy required to operate the module
Module temperature control		Protective feature where the driver is regulating down the module power when a certain critical temperature of the module is passed
Passive cooling		Cooling without power consumption
Power factor	Pf	Indicating how effective the driver converts electric current to useful power output
Relative Humidity	%	Portion of water vapor in a mixture of air and water vapor
System efficacy	lm/W	Efficiency module + driver
System power	W	Energy required to operate the system
Tc life driver	°C	Temperature of indicated point on the product on which the lifetime is based
Tc life module	°C	Temperature of indicated point on the product on which the lifetime is based
Total harmonic distortion	%	Indication of the influence of the lighting products on frequencies of other equipment
Zhaga		Zhaga is an industry-wide cooperation between companies aimed at enabling the interchangeability of LED light sources made by different manufacturers
