Fundamentals

2015 Canada Philips Lighting Application Center Course Description

Lamp and Ballast Product **Training**

This workshop provides a 1-day training session that will allow participants to acquire the knowledge to choose the optimal light sources and lighting systems for all lighting application solutions. Technological advancements in both lamps and the auxiliary devices that make them perform are changing and improving. Discover how the luminaire systems: the lamps, the ballasts, drivers, and optics will allow you to choose the best lamp and ballast combination to optimize your lighting designs.

Who Should Attend

This training is aimed at the needs of those lighting professionals that wish to augment their lighting knowledge and know-how regarding specifying lamps and ballast providing better energy savings and design options.

Pre-requisite: Lighting Fundamentals or Lighting Essentials

Canadian Workshop Fee: \$290 Canadian Dollars — [Register Now](#)

Location: LAC, Markham

Scheduled dates:

July 7

Please email Celine Wang at celine.wang@philips.com with any questions.
