

Philips Silvered Bowl Reflector Lamps

Indirect lighting source for reflecting luminaries

▶ Mirrored Bowl

Visual comfort—shields bright filament from view, especially for applications where the lamp protrudes from the luminaire

▶ Satin Frosting

Diffuses and softens indirect effect

▶ Provides Soft Illumination

Ideal for accent lighting and decorative pendants

1) Rated average life is the length of operation (in hours) at which point an average of 50% of the lamps will still be operational and 50% will not.

2) Unless otherwise noted, may be operated in any positions, but lumen maintenance is best when operated vertically base up.

3) For use only in equipment specially designed to maintain bulb and base temperature within safe limits.

4) Operate only in porcelain sockets

5) Operate base up
