Glossary of terms

The LED technology integrated into Philips lights is a unique solution developed by Philips. It turns on instantly, enables an optimal light output and brings out vivid colours in your home. The LED lighting technology used in Philips lighting fixtures is highly energy-efficient (7.5 W module produces 350 Lumen). As a result, every lighting fixture conserves energy, helping you to save money on your electricity bills and contribute to preserving the environment.

Adjust the light intensity of your Philips light with a dimmer switch (not included). This makes the light ideal for highlighting a feature or creating an ambience for any occasion, whether it's a cosy meal or chilling out with family and friends in your living room.

Click Fix is a new patented system specifically designed for the installation of luminaires in four easy steps

Be smart and utilise products with a smart motion detector to turn lights on automatically.

SELV:

SELV stands for Safety Extra Low Voltage. A SELV circuit is a secondary circuit which is designed and protected so that under normal and single fault conditions, its voltages do not exceed a safe value.

Adjustable spot head:

Direct the light where you want it most by simply adjusting, rotating or tilting the spot head of the lamp.

Accent lighting:

Selected Philips spot lights have the perfect light beam for accent lighting. With bundled light you can emphasise any detail or feature in your interior.

High quality light:

Philips eco halogen lamps offer brilliant light to highlight features or create a nice ambience in your room while saving energy compared to traditional halogen lamps.

At Philips, we know that you work hard to create the perfect ambience in your home – for friends and family, or just for yourself.

As the latest trends in interior design combine with the need for energy efficiency, there's never been a better time to consider stylish LED solutions, alongside more traditional light sources. So whatever you're looking for, we're sure our collection of wall and ceiling, downlights, bathroom and outdoor solutions will have the right luminaire at the right price – whatever your style, whatever your inspiration.

Wall and Ceiling

Lighting for the home

The following section is a collection of stylish and contemporary functional lighting solutions. Every luminaire is easy to install with simple instructions and comes with everything it needs to work straight out of the box. Wherever you want light, we have the perfect solution for your perfect living experience.

Downlights

Our downlights collection is available in a wide variety of colours, wattages, shapes and sizes. So whether you are looking for a basic spot or a more decorative luminaire, Philips' wide selection provides the perfect spotlight for your interior scheme.

Choosing the **perfect light source**

Creating the right ambience in each part of your house is no easy feat, but thanks to different kinds of light sources, our surface mounted and recessed spots allow you possibilities by the dozen, whether you are looking for general lighting, accent lighting or orientation lighting.

Lighting the way

Philips prides itself on its high quality standards, offering you safe, reliable products with a longer lifespan. Our collection not only offers great quality and energy efficiency, but also provides fantastic light output. Another key priority for Philips is the creation of user-friendly products. From well considered design and construction, to the clear mounting instructions in the user manuals, our system allows you to install your spots flawlessly and with little effort.

Bathroom

Our collection of easy-to-install luminaires designed specifically for bathrooms and other wet areas, are stylish safe solutions providing both bright, instant light and the right ambience for a variety of applications.

Your safety **first**

When it comes to choosing lighting for the bathroom, safety comes first. That's why our collection exceeds even the strictest European safety standards and regulations for bathroom lighting. Each luminaire comes with everything it needs to work straight out of the box, with easy-to follow instructions for minimal installation. All the lights in the following section can be installed in zones 2 and 3 within a bathroom (see diagram below), so whatever style you choose, you know you've chosen safety too.

Outdoor

The garden is an integral part of your home. Lighting in this area can be used to accentuate garden paths, to illuminate doorsteps and driveways, or to create a cosy ambience during a summer barbecue. Philips offers luminaires in a wide range of styles and applications: whether you are looking for modern, contemporary design or a more traditional style. Philips outdoor luminaires match the atmosphere of your choosing perfectly.

Living under the open sky

The line between in and outdoor life is fading. In many gardens true living rooms and summer kitchens are appearing. The garden and terrace are becoming extra 'rooms' where people cook, eat, read, play, rest or work. Here, as in the rest of the home, Philips creations help you create a pleasant, cosy ambience.

Enjoy the weather, even the rain

Every luminaire in the Philips Outdoor collection is carefully developed and constructed to be safe and long lasting in all weather conditions, as well as easy to install and maintain. In addition, as our outdoor luminaires use Philips light bulbs, you're ensured the best light output, quality and energy efficiency.
