

LED lamps classic

# Designed to be seen

The perfect mix of classic style and today's LED efficiency

# Looks like incandescent **saves like LED**

Now you can turn back the clock and recreate that classic look and feel of incandescent lighting with Philips LED lamps classic. A collection of heritage-designed lamps that offer some of today's best energy savings.

## Designed to be seen

Philips LED lamps classic recreates incandescent lighting in every way possible. The classic bulb shapes are designed for timeless, decorative appeal. But it's what's inside that makes them so different. We've given our LED energy-saving technology a new twist by arranging the LED to mimic incandescent, so you can create a glowing, warm white light without high energy bills.

## Create intimate ambiences

The timeless appeal of Philips LED lamps classic makes them perfect for a wide range of applications:

## **Application areas**

- Create a magical, intimate atmosphere in living rooms
- Add a touch of vintage ambience to restaurants, bars and hotel rooms
- Illuminate hospitals and museums with soothing, warm, white light.

# Spot the **new classic**

## A beautiful alternative to halogen

As new ErP legislation comes into effect, mainsvoltage halogen lamps will no longer be available for sale. Our LED spots classic are just as iconic and are now made from glass. You'll appreciate the stylish design for its well-known look and feel whether the lamp is switched on or off. Philips LED spots classic are the perfect halogen replacement for high-end applications such as restaurants, hotels or private residences.

The single optic glass spots offer high quality light output with a good colour rendering index of CRI80. They're also a classic choice for their long lifetime and low energy consumption.

## LED spot classic GU10

- Long-lasting replacement for dimmable spots
- LED replacement for halogens phased out by ErP
- Glass spot with single optic
- Optimised beam angle
- 15,000 hours lifetime

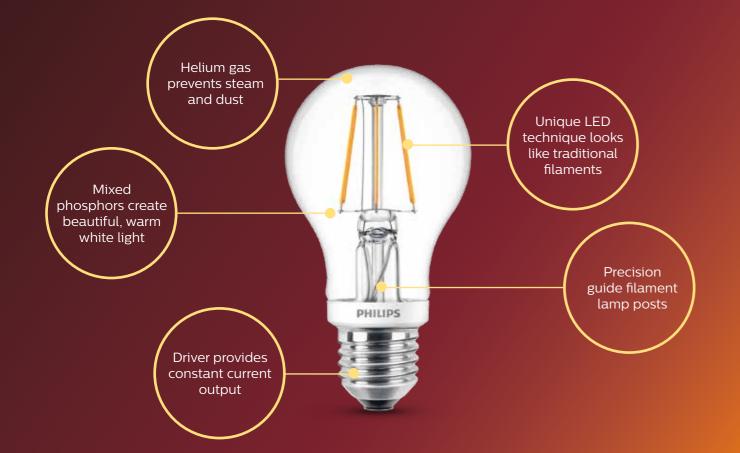

## DimTone - the more you dim, the warmer the light

This unique feature takes dimming to the next level. As the light is dimmed, the colour temperature is reduced. This creates a warm, intimate ambience at lower light levels with the same candle-like effect as dimmed halogen or incandescent lamps. So you can create the most elegant and luxurious lighting for hospitality, bar and retail environments.

## LED filament technology

## Long-lasting energy savings

The real beauty of Philips LED lamps classic is that they use less energy. With 90% energy savings and a long and reliable life time of 1,000 vs 15,000 hours, 15 times longer than incandescent bulbs, you'll save on energy and replacement costs. So you can look forward to hours of beautiful ambience that looks like incandescent and lasts like LED.

## Incandescent

Since 1879 NO energy saving 1,000 hours lifetime

	Equivalent wattage	Equivalent wattage	Equivalent input wattages
Candles	25 W	18 W	3 W
