The comfort of softer and more appealing light with warm glow
Philips LED Lamps with warm glow effect

Create a warm, relaxing ambiance using Philips LED lamps with warm glow effect. Cutting-edge technology reduces the lamp’s color temperature to a warm glow when dimmed, taking LED lamp dimming to new levels. The A19 and G25 feature a new omni-directional prism that creates the look and feel of a filament, with a uniform lighting effect for use in most lighting fixtures.

LED benefits with the ambiance of incandescent

- Select A19 and Reflector lamps are suitable for use in enclosed fixtures
- Traditional lamp shapes with smooth dimming to <10%
- A19, R20, BR30 and BR40 are ENERGY STAR® certified
- Color temperature ranges from 2700K to 2200K as the lamps are dimmed
- 25,000 hour LED lifetime
- A19 and G25 clear lamps feature omni-directional light distribution
- For information on Philips’ limited warranty please visit www.philips.com/warranties

Easy to experience

- Incandescent-like dimming experience
- Long Life, can reduce maintenance costs
- Dims to a smooth, even glow
- Maintains CRI throughout dimming range

---

1. LED lifetime means the length of time (in hours) until half of the LED light sources maintain at least 70% of their initial lumen output (B50,L70).
2. This lamp provides a measured light distribution of 300°. In use, this lamp gives the appearance of an omni-directional light distribution (360°).
3. Dims from 2700K to 2200K along the black body line, while maintaining CRI.
4. Dimmable when using leading and trailing edge dimmers. (See http://www.philips.com/ledtechguide)
### Philips LED Lamps with warm glow effect

**Ordering, Electrical and Technical Data** *(Subject to change without notice)*

Light dims to a warm glow, similar to incandescent.

1. See Technical Application Guide for complete details. Only certain lamps are rated for enclosed fixtures. All lamps include an over temperature protection (OTP) feature that systematically reduces the lamp power and consequently its internal temperature should it be subjected to abnormally high ambient temperature conditions.

2. LED lifetime means the length of time (in hours) until half of the LED light sources maintain at least 70% of their initial lumen output (B50,L70).

3. All Philips LED Lamp equivalencies for light output are based upon the ENERGY STAR® guidelines as detailed in the ENERGY STAR Lamps V1.1 September 2014 specification.

This lamp is ENERGY STAR® Certified.

PHILIPS LED Lamps with warm glow effect

Notes
These lamps comply with Part 15 of the FCC Rules. Operation is subject to the following 2 conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This class B digital apparatus complies with Canadian ICES-003.
