Philips is now introducing a new line of connected LED lighting products with EasySmart technology. Philips InstantFit LED T8 with EasySmart technology is compatible with verified electronic ballasts. It is the easiest way to replace fluorescent lamps with connected LED lamps without rewiring the fixture. It is true plug and play. The lamp offers standard ZigBee based connectivity that easily interoperates with various control devices. Compared with a non-connected LED solution, EasySmart technology realizes more energy savings by enabling advanced control options.
Drivers
- Compatible with verified electronic ballasts
- Designed and approved to UL, CSA and FCC

Optics
- Advanced optical system with high efficiency reflector

Dimension
- Compliant with IEC and ANSI standards

LED
- Latest innovation in LED chip design

Connectivity
- Standard ZigBee based wireless interface
- Integrated infrared (IR) receiver

Thermal
- Enhanced thermal management features

Product Features

Ballast Compatibility
- Innovative driver design that enables a “plug-and-play” LED solution.
- Compatible with verified electronic ballast.
- Quick and easy installation.

Connectivity
- ZigBee based wireless interface.
- Reliable and secure wireless communication, nominal range 40 feet.
- Up to 50 lamps in one network.
- Easy commissioning and (re-)configuration from the floor.

Control Functionality
- Automatic on/off and dimming based on occupancy detection and daylight variation.
- Personal dimming and scene setting with ZigBee wireless switch.
- High-end trimming to help save energy and extend lamp life.

Energy Savings
- Energy savings of 50% or more* when used with advanced control such as dimming, occupancy sensing and daylight harvesting.
- DLC listed.

User comfort
- Uniform light output with advanced optical design.
- Personal light setting to enhance user comfort and productivity.
- Typical CRI 82.

Reliability
- Reliable operation between -20°C and +45°C ambient temperature.
- Tested to B50 L70 requirement. Lamps are rated for 50,000 hours.
- 200,000 switching cycles.

Safety
- Over voltage and over temperature protection.
- Complies with relevant UL and CSA safety requirements.
- Shatterproof polycarbonate (PC) material.

Environment
- No Mercury.
- Low Carbon Footprint.

* 50% energy savings compared to an F32T8 when dimmed at least 30% for 10% of the time product is on.
System Overview

Communication between lamps, switches and sensors is ZigBee based. To facilitate the installation, Philips provides an IR programming tool as accessory. Your control device manufacturer will provide a tool (ie: mobile app), to commission the sensor and switch.

* Philips InstantFit LED T8 with EasySmart technology uses ZigBee protocol to communicate with each other and control devices.
* EasySmart IR programming tool communicates with individual lamp via infrared.

Luminance Table
**Lifetime and Lumen Maintenance**

Philips InstantFit LED T8 with EasySmart technology has a lifetime of 50,000 hours. This is defined as the number of hours when 50% of a large group of identical lamps drop below 70% of its initial lumen.

**Lifetime and Dimming**

Dimming can help extend lifetime (ie: dimming 30% can extend lifetime by 9,000hrs)
Lifetime and Failure Rate

Lifetime vs. Failure rate @Ta 25°C

Lifetime vs. Failure Rate vs. Tcase

Product must be used with compatible control devices. Please visit [www.philips.com/EasySmart](http://www.philips.com/EasySmart) for latest information on control compatibility.
Approbation & Certificates

Philips InstantFit LED T8 with EasySmart technology strictly follows applicable legislation and standard. The product complies with UL, CSA, NSF and RoHS.

![UL, CSA, NSF, RoHS](image)

Product is DLC qualified.

![DLC](image)

Philips is a member of ZigBee Alliance. Product is ZigBee certified.

Application Notes

- Product is dimmable by wireless control
- Suitable for damp locations
- Reliable operation between -20°C to + 45°C ambient temperature
- Suitable to replace T8 fluorescent lamps that operate on instant-start ballasts
  Please refer to www.philips.com/EasySmart for latest ballast compatibility list
- Require use of shunted lamp holders
- Not intended for use in emergency luminaires
- Not compatible with luminaires that use a remote starter
- Modifications to the product void the limited warranty.
  For warranty information, please see www.philips.com/warranties
- You are required to read and understand the Quick Installation Guide and all warnings, cautions and other materials related to installation published at: www.philips.com/EasySmart before commencing installation work

Footnotes
