# Warranty policy

## for Components

This document sets forth the warranty policy of the Philips (sales) organization ('Philips') from which you ('Purchaser') purchase your components. This policy is applicable only to Philips branded components ('Products') sold in Europe, Middle East and Africa and installed from June 2012 onwards. Warranty conditions on previously installed products remain unchanged.

## This warranty policy is subject to the provisions as set forth herein and is subject to the terms and conditions as attached to this document ('Warranty Terms and Conditions').

This warranty policy only applies if referred to in a sales agreement between Philips and the Purchaser and will replace the standard warranty clause provided in the Philips general terms and conditions of sale.

## A. Warranty period

Subject to the provisions as set forth in the Warranty Terms and Conditions and as set forth hereunder, Purchaser receives the warranty for the applicable period, as described in the table on the right. Derived or co-developed products may have different warranty periods and conditions. These prevail above the periods mentioned in the table.

## **B.** Special conditions

- Warranty period starts from date of installation, but will never start later than six (6) months after the date of manufacturing of the Product.
- Warranty period is based on a maximum of 500 hours per year for HID Sports Lamps, 1000 hours per year for 'Other Lamps' and 4000 hours per year for all other products.
- Product has to be applied in accordance to Philips specification and guidelines, and with usage in accordance to IEC switching cycles.
- Single component warranty applies for components independent of the brand or type of other components used in the system, provided the Philips product is used in accordance to Philips specification and guidelines.
- System warranty only applies when applying appropriate Philips driver (as in datasheets and applications notes).
- Purchaser has to provide complaint info (i.e. system used, installation date); no upfront registration is required.
- Compensation is product for product for all confirmed failures; no minimum threshold applies; labour costs are not covered.

### Index

- <sup>1</sup> CDM Elite: for initial installations, applied with HID PrimaVision or AspiraVision driver and not dimmed.
- <sup>2</sup> CosmoPolis: when applied in horizontal burning position.
- <sup>3</sup> For Horticulture applications: see dedicated leaflet.

<sup>4</sup> With HF pre-heated driver, like Philips HF-P or HF-R.

<sup>5</sup> TL Xtra/Xtreme: when applied with HF-P-Xt driver and dimmed no lower than 30%.

## PHILIPS

# Warranty

## Terms and Conditions

## 1. Limited Warranty

The warranty as described herein shall only apply to Philips branded lighting products sold by Philips Lighting in the territory of Europe, Middle East and Africa (hereinafter referred to as 'Product'). The warranty is only applicable to the party purchasing the products directly from Philips (hereinafter referred to as: 'Purchaser').

Philips warrants that each Product will be free from defects in material and workmanship. The foregoing warranty shall be valid for the period mentioned in the applicable warranty policy for your Products as referenced to in your sales agreement. If a Product fails to operate in accordance with this warranty Philips will provide free replacement of the failed Product subject to the applicable warranty policy and the limited warranty terms and conditions set forth below.

### 2. Terms and Conditions

- Philips' warranty flows only to Purchaser. If any Product covered by this warranty is
  returned by Purchaser in accordance with section 3 and within the applicable warranty
  period set forth in the warranty policy and upon examination Philips determines to its
  satisfaction that such Product failed to satisfy this warranty, Philips will, at its option,
  repair or replace the Product or the defective part thereof, or reimburse Purchaser
  for the purchase price. For purposes of clarity, 'repair or replace the Product or the
  defective part thereof' does not include any removal or reinstallation activities, costs
  or expenses, including without limitation, labor costs or expenses.
- If Philips chooses to replace the Product and is not able to do so because it has been discontinued or is not available, Philips may refund the purchaser or replace the product with a comparable product (that can show small deviations in design and product specification).
- No agent, distributor or dealer is authorized to change, modify or extend the terms of the limited warranty on behalf of Philips, in any matter.
- This limited warranty only applies when the Product has been properly wired and installed and operated within the electrical values, operating range and environmental conditions provided in the specifications, application guidelines, IEC standards or any other document accompanying the Products. If a Product is found to be defective, or not performing per the product specifications, the Purchaser must notify Philips in writing.
- Philips will facilitate the technical resolution of problems. Third party products sold by Philips are not covered under this warranty, except as indicated in section 5.
- This warranty does not apply to damage or failure to perform arising as a result of any Acts of God or from any abuse, misuse, abnormal use or use in violation of any applicable standard, code or instructions for use including without limitation those contained in the latest safety, industry and/or electrical standards for the relevant region(s).
- This warranty shall be void in the event any repairs or alterations, not duly authorized by Philips in writing, are made to the Product by any person. The manufacturing date of the product has to be clearly readable. Philips reserves the right to make the final decision on the validity of any warrantee claim.
- If requested by Philips, the non-conforming or defective Products shall become Philips' property as soon as they have been replaced.

## 3. Warranty Claims

All warranty periods mentioned are subjected to a Philips representative having access to the failed product or system for verification of non-compliance. Guarantee claims have to be reported and returned to the local Philips office within 30 days after discovery, specifying at least the following information (additional info may be required on request):

- details of the failed Products; for System warranties also details of other components used;
- installation date and invoice date;
- detailed problem description, number and % of failures, date-code of failure;
- application, hours burned and switching cycles;
- where a warranty claim is justified, Philips will pay for freight expenses. Philips may
  charge Customer for returned Products that are not found to be defective or nonconforming together with the freight, testing and handling costs associated therewith.

### 4. No implied or other warranties

- The warranty and remedies contained in the terms of the limited warranty are the
  only warranties given by Philips with respect the Products and are given in lieu of all
  other warranties, whether express or implied, including without limitation warranties
  of merchantability or fitness for a particular purpose, which warranties are hereby
  disclaimed.
- These terms and conditions state Philips' entire liability and obligation to Purchaser and Purchaser's sole and exclusive remedy in connection with defective or nonconforming Products supplied by Philips to Customer, whether or not such damages are based on any warranty not explicitly mentioned in these terms and conditions, tort, contract or any other legal theory, even if Philips has been advised or is aware of such defects.

## 5. Limitations and conditions

- This is a limited warranty and excludes, among other items, installation, providing
  access to products (scaffolding, lifts, etc.), and special, incidental and consequential
  damages (such as loss of revenue/profits, damage to property or other miscellaneous
  costs not previously mentioned), and is further defined by the limitations and
  conditions set forth in the respective warranty policy and these terms and conditions.
- Upon request, Philips' representatives have to be allowed to access the defective
  Product, system or application for verification of non-compliance.
- Philips cannot be held liable for electrical supply conditions, including supply spikes, over-voltage/under-voltage and Ripple Current control systems that are beyond the specified limits of the products and those defined by relevant supply standards (e.g. EN 50160 norms).
- With respect to products sold to the Purchaser by Philips. but not bearing the Philips name or sub-brands, Philips makes no warranty of any kind, express or implied, including, without limitation, any warranty of merchantability or fitness for a particular purpose, but will make available to the Purchaser upon request, but only to the extent permitted by law and relevant contracts, the warranties of the manufacturer of the relevant product.
