

# Healthy breast milk warming

---

Introducing our new bottle warmer range

**PHILIPS**  
**AVENT**

## Helping preserve the nutrients and vitamins in your breast milk

Every drop of your breast milk is precious, full of vitamins and nutrients that support the healthy development of your baby.

For 30 years, Philips Avent has been listening and learning from moms so we can help support you in breastfeeding and your little one's evolving needs.

Philips Avent offers a range of bottle warmers to help warm your milk safely and conveniently every time. Part of our understanding of the importance of your breast milk and dedication to helping you breastfeed for longer.

### The importance of breast milk

Breast milk is unique, containing the essential blend of nutrients, antibodies, enzymes and hormones that your baby needs, making it the ideal first food for your baby. Its protective effects continue for you both even after you stop breastfeeding.

*“ It’s important that moms are able to give their babies nutrient-rich milk at all times. The Philips Avent baby bottle warmer helps preserve the goodness of your breast milk while having all the convenience features you need to fit it into your busy day to day routine. ”*

\* In the case  $\leq 150$  ml / 5 oz of milk at a temperature of 20 °C / 70 °F in a Philips Avent Classic / Natural bottle of 260 ml / 9 oz.

SCF355

## Our most convenient bottle warmer

### Helps to preserve nutrients and vitamins of your milk

The newest addition to the Philips Avent bottle warmer range, this bottle warmer warms gently and evenly, hot spots are avoided as the milk circulates during warming. The integrated sensor tracks and controls the milk temperature, preventing overheating to help preserve nutrients and vitamins of the milk.

Multiple warming settings cater to your baby's preferences while the clever progress indicator lets you know how long until the milk is ready. Automatic keep warm and shut off functions keep milk at the exactly right end temperature for 20 minutes before switching itself off.

Easy to operate and stylishly designed, this bottle warmer also has a defrost setting and can be used to warm baby food.
