Philips RightFit
Service Agreement
Value

Philips support designed around you

RightFit Value is an offering for customers looking for creative ways to minimize their service expenses while mitigating their risk. It's a practical solution for hospitals facing the need to keep costs low and patient-care quality high. RightFit Value includes planned maintenance at a very attractive price point.

Customizable Support

RightFit Value is part of the Philips RightFit service agreements portfolio which offers a comprehensive range of options to best meet your individual service needs. All of the agreement options are designed around our customers and offer excellent service experience, open communication, and a hands-on Philips approach.

Affordable, quality service

When cost control is your top priority, then your best choice for support is Philips RightFit Service Agreement Value. A Value agreement is an economically-minded offering designed to help you balance your clinical needs with your financial realities without ever compromising on patient care.

What is included within the RightFit Value service agreement?

- The ability to cover your preventive maintenance needs and keep your system operating without unnecessary disruption
- The knowledge that your equipment is being maintained according to OEM standards
