PHILIPS

Cardiovascular
Scheduler

Streamlined.
Intuitive.
Customizable.

Take your scheduling
workflow to the next level

Achieving efficient resource utilization across your enterprise is a complex job

Simplify the collaboration across your enterprise and streamline the management of resource scheduling to **improve operational efficiency.**

With **Cardiovascular Scheduler** you can schedule multi-modality appointments in the right rooms, with the right staff, at the right time. All this, in an easy-to-use, customizable browser-based application.

Whether it is used as a stand-alone or integrated system with your HIS/EMR, Cardiovascular Scheduler can seamlessly communicate with your downstream systems and provide an **end-to-end scheduling solution.**

Paving the way for an optimized scheduling workflow. **What's in it for you?**

Scheduling Assistant

Cardiovascular Scheduler helps you to remove scheduling complexity with the ability to:

· View resource availability in real-time
· Easily schedule multi-modality procedures
· Drive hospital compliance by managing the checklist, ensuring all necessary actions are completed on time
· Manage your work efficiently with the intuitive worklist and the ability to prioritize orders
· Improve patient engagement and preparation with the ability to create appointment letters and send patient reminders before the procedure

Physician

With Cardiovascular Scheduler, you can focus on what matters the most – your patients.

· Know exactly when and where you need to be with a real-time view of your schedule, also available as an iCalendar
· Seamlessly connect with your information systems, allowing you to have all the insights you need for your patient – with single sign on
· Take ownership of your schedule with the ability to block your own slots and to capture data when needed

Facility Administrator

Streamline operational efficiency with:

· The ability to associate resources to a specific facility or institution, enabling employees to be up and running from day one
· Drive hospital compliance by ensuring that stakeholders have the right permissions, eliminating potential errors
· Highly configurable solution that allows you to meet your specific multi-facility needs, such as the ability to configure patient administration

Enterprise Scheduling

A solution designed to work with you and for you to meet your enterprise scheduling needs:

· Easily navigate between the organizations you are assigned to, based on your profile
· Be on top of your administration with the ability to configure your system – driving operational efficiency and hospital compliance
· A solution that can seamlessly integrate with your HIS/EMR

**Highly customizable**   **Improved staff satisfaction**   **Optimized resource utilization**   **Driving hospital compliance**   **Seamless integration**

A scheduling solution that **everyone in your enterprise can benefit from.** How would you like to **optimize your scheduling workflow?**
