

PHILIPS

 **VOLCANO**

Verrata Plus

Pressure guide wire

The wire you choose, the technology you can trust

For over 20 years Philips Volcano has led the way in physiology, putting patients first through continuous innovation

Introducing our 10th generation physiology wire: **Verrata Plus**

- Adapted from the market-leading Verrata pressure wire
- **New** in-line clip connector for improved work flow
- **New** high fidelity sensor for reliable pressure measurement
- Reliably connect and disconnect with confidence
- Seamlessly switch between FFR and iFR, the only resting index with over 9,000 patients studied

The Quick Connect process

1 Angled approach

2 Drag

3 Drop

Ordering information

| Model | Length | Tip |
|----------|--------|----------|
| 10185 P | 185 cm | Straight |
| 10185J P | 185 cm | J-tip |
| 10300 P | 300 cm | Straight |
| 10300J P | 300 cm | J-tip |
