

PHILIPS

IntelliSpace Cardiovascular

Enhance your Cardiovascular IT solution by upgrading your Xcelera to IntelliSpace Cardiovascular*

IntelliSpace Cardiovascular

Xcelera → IntelliSpace Cardiovascular

What we bring to you

- Seamless access to patient's comprehensive data throughout the complete care pathway, empowering clinicians to turn clinical findings into a decisive action plan
- Easy access to third-party applications, including your ADT, EMR, scheduling systems and advanced clinical applications for advanced analysis, quantification and reporting
- Cross-functional workflow and collaboration among care givers – both within your hospital and among your referrers and other healthcare providers
- Interoperability through configurable multi-vendor integration with:
 - Modalities
 - Information systems
 - Clinical applications
- A scalable solution that grows from single to multiple sites

Clinical benefits

Provides a single point of access to images and information anytime and virtually anywhere⁽¹⁾. Perform comprehensive analysis, quantification and reporting for fast, informed clinical decision making.

Operational benefits

Provides interoperable access to a variety of systems and applications from a single location, allowing you to analyze data to streamline efficiency.

Financial benefits

Decreases deployment costs and time while interfacing to existing systems through zero-footprint technology.

Augmented security

Best-practice industry standards to combat the evolving cyber security threats in Healthcare. Enhanced security and Enterprise protocols. Operating System required: Windows 10 and higher.

* Note that availability of IntelliSpace Cardiovascular varies per market, please contact your Philips representative for more information.

⁽¹⁾ It is the user's responsibility to ensure that Philips network performance requirements (such as performance, VPN) for IntelliSpace Cardiovascular are met.
