In a state or state-of-the-art?

Real professionals count on the new **Philips CoreLine highbay**

Introducing the new CoreLine highbay

The new CoreLine highbay proves that even champions can get a powerful and effective performance upgrade. Built on the success of its forerunner, the next generation highbay takes performance even further with new, innovative design, higher efficiency and greater lifetime. Designed as a replacement for conventional highbay luminaires, it offers all the desired benefits of LED lighting, while also giving installers advantages like simple installation, smaller size for easy handling, installation on existing grids and straight-forward electrical connection. All in all, the right decision when light really matters.

- ✓ High-quality visibility and application uniformity with low glare.
- ✓ Robust and reliable solutions for long service life.
- ✓ Highly efficient solutions with an attractive total cost of ownership.
- ✓ Dedicated lens optics (NB/WB) to meet all application requirements
- ✓ Innovative product design with the option of seamlessly integrating sensors into the product.

Next generation performance with the new CoreLine highbay

- ✓ High efficiency of up to 145 lm/W
- ✓ Long service life of 70,000 at L70
- ✓ Single point mounting system for simple installation
- ✓ Low glare rating and color rendering of >80
- ✓ Suitable for replacement of 250W / 400W conventional highbays

Application:

- ✓ Warehouses
- ✓ Logistical centers
- ✓ General manufacturing areas
- ✓ Exhibition halls
- ✓ High ceiling lounges

New and improved:

- ✓ 25,000 lumen version
- ✓ System efficiency: 145 lm/W
- ✓ 70,000 hrs lifetime at L70
