

The Philips logo is displayed in a bold, blue, sans-serif font. It is positioned within a white rectangular area that has a rounded bottom-right corner. This white area is set against a dark purple background that also has a rounded bottom-right corner, creating a layered effect.

PHILIPS

Managed Services

A woman with short brown hair, wearing a light blue blazer over a white top, is looking upwards and to the right. She is holding a white coffee cup. The background is a blurred office interior with warm, yellowish light from ceiling fixtures. A man in a blue shirt is partially visible in the foreground on the right, out of focus.

Light beyond illumination

Philips Lighting Services

Philips Managed Services

End-to-end services add value to your lighting

It's an entirely new way of thinking: lighting as an essential tool that delivers an amazing user experience and contributes to an organization's success and sustainability. You don't have to manage your own lighting installation – Philips can do it for you and save you money in the process.

Our new comprehensive lighting services include maintenance, replacements and continued optimization. Take it one step further and simply let us provide the light you need. Instead of investing in all the equipment yourself, you'll only pay for the light you actually use. Which lets you focus on what matters most: minding your own business.

Philips Lighting Services

- Global presence and local experience for multi-level support.
- World-class innovation capabilities and deep application and system expertise.
- One-stop shop: solutions and services for all your lighting needs.
- Proven record of quality and reliability – no unpleasant surprises.

Our Managed Services

Standard Managed Services

Savings: energy, operations and maintenance costs

Hassle-free: performance-based outcomes

Lighting as a Service

= *Standard Managed Services* + *financing*

Partnering with you, we can translate the needs of your organization into a lighting design that delivers exactly the kind of illumination you need (the light output). We will create a tailor-made suite of specific lighting systems, products and services and handle everything for you. We offer a complete turnkey approach including end-to-end design, building, operation and maintenance of the lighting installation, and support in optimizing your business operation.

Standard Managed Services

Hassle-free savings with optimized performance

- Lighting design based on the visible light output (measured in lumens), not a selection of physical products
- Save money on energy, maintenance and depreciation costs
- Hassle-free and guaranteed operation of your lighting equipment, with updates to new product upgrades
- Detailed training and documentation for users

Light as a Service

No upfront investment

Everything included in the Standard Managed Services – plus:

- Instead of you having to make a major upfront investment in your lighting infrastructure, we can help you to finance it
- Optimize your return on investment: no capital expenditures or maintenance & replacement costs
- Your partnership with Philips includes all future technology updates

Circular lighting

Best in class sustainability with circular economy elements

Everything included in Light as a Service – plus:

- Use of specially developed, sustainable product lines
- Designed from the ground up for reuse and recycling
- Minimize your carbon footprint and materials wastage
- Create a positive business case for people, planet and profit
