100 years of automotive lighting

Celebrating 100 years

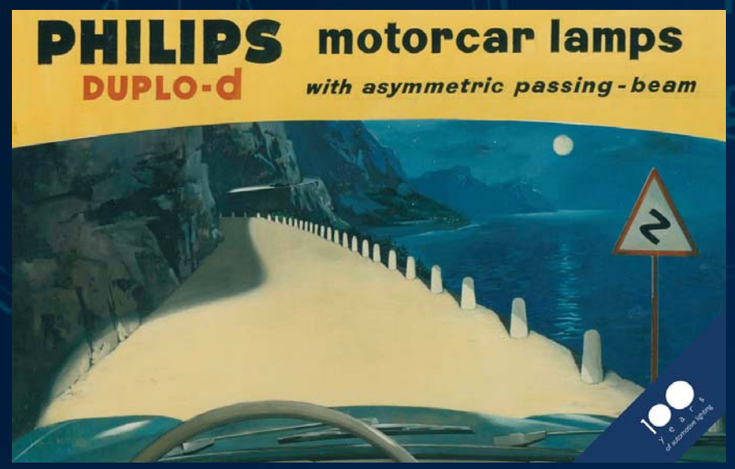

An inspiring journey of quality and innovation

Lighting up passion
– since 1914 –

As the world fell in love with the automobile, we found our **passion** making a **positive difference**. We believe in simply enhancing people's lives on the move by creating **meaningful innovations** that make their mobility experience **safer**, more **environmentally friendly** and **stylish**.

From **halogen** and **xenon** to **LEDs**, we've been **lighting up passion** since 1914 – and the **future is even brighter**!

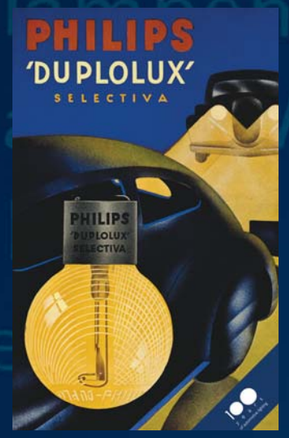

1914 – 1936
A passion is born

We are one of the **first** manufacturers of **modern electric automotive lighting**!

Our first headlamp, the **Half Watt**, was soon followed by the **Duplo**, the first automotive **dual-filament** lamp adapted to faster traffic.

In **1936** we introduced the **Duplolux Selectiva**, the **first modern headlamp** featuring a **far-reaching beam** ensuring **greater safety** at higher speeds.

1937 - 1962
Ahead of our time

For greater safety and comfort, we developed the **Duplo-D**, which featured a unique, **asymmetrical passing beam** that would not blind oncoming motorists.

In **1960** we opened a new factory in **Aachen**, **Germany** and in 1962 we created the world's **first halogen headlamp**, the **H1**. Many European countries would soon make halogen headlamps **mandatory** on all new automobiles.

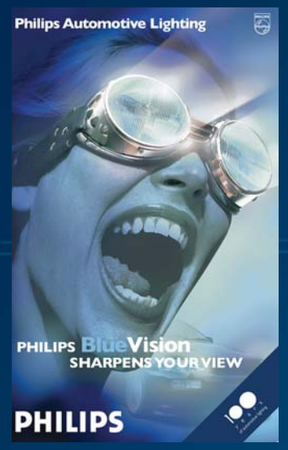

1963 – 1998
See better, drive better

As cars became more **powerful**, so did our headlights. By **1970** we had not only created the halogen **H2** and **H3** but also the **revolutionary H4**, the first **two-filament halogen** headlamp.

In **1991** we unveiled the world's **first xenon lighting solution** on the BMW 7-series.

In **1993** we brought out the halogen **H7**, a **powerful** and **compact** lamp to meet the demands of modern vehicles, still widely used to this day.

Our stylish **BlueVision** range was first introduced in **1998.** It combined **ultra-white light** with a **dazzling blue effect** for drivers seeking more style.

1999 – 2010
Innovative sustainability

We introduced the first **mercury-free**, xenon **HID** (high-intensity discharge) headlamp! Today **all Philips headlamps are mercury and lead free**.

The world's **first fully equiped LED headlight** was fitted with powerful Philips LEDs.

In **2009**, we began offering **LED Daytime Running Lights** in aftermarket for increased **driver safety**.

Always on the forefront of delivering maximum light, in **2010** we revamped our **X-tremeVision** range with **100% more light**!* Philips **LongLife EcoVision**, offering **4x** lifetime, was originally introduced in **2008** as EcoVision, the **longest lasting lamp*** on the market!

100 years of automotive lighting

The lights of tomorrow

Lighting up passion
– since 1914 –

The future is **now**!

2011 - 2014

2011 We took the advanced performance and power of **LEDs** and created our **Professional workshop lamp** range to help you **see better and work better!**

2012 We introduced the **Xenon X-tremeVision** headlamp, the **first xenon** lamp to offer **50% more light**!*

2013 We unveiled our **ColorVision** range, designed specifically for car enthusiasts seeking **ultimate color customization** and a **powerful light** beam with up to **60% more white light**!*

2014 Introducing the **innovative CBL40** Professional workshop lamp. The first workshop lamp that adapts to your needs by being either **plugged** into a wall socket or used as a **cordless** lamp **in a snap**!

The new **WhiteVision** halogen lamp features **60% more brilliant white light*** and an intense **xenon effect** for drivers seeking more **style**!

Our new compact Daytime Running Light, the **DayLight 9** delivers a powerful, **ultra-wide**, **homogeneous light** through advanced optical engineering.

To celebrate our 100th anniversary, we **boosted** the **performance** of our award-winning **X-tremeVision** range, now featuring **130% brighter light** for **maximum safety** on the road.

We equip modern **OEM matrix headlamps** with our LEDs. All major car manufacturers use our **Lumileds LEDs** which offer an exclusive **modular design** system for ease and **simplicity** of **integration** with a fully customizable matrix configuration for **flexible** cavity positioning. Using selective light modulation, the LUXEON® F LEDs produce a smooth, **homogeneous light output** with a dynamic beam that **adapts** to specific driving conditions.

Our **passion** is for making your drive a **safer** and more **pleasant** one. Through the meaningful **innovation** of automotive lighting solutions, we offer today's drivers the **lights of tomorrow**.

The brightest moments are yet to come!

*Compared to standard xenon or halogen lamp

We create

Philips Automotive, a business group of Royal Philips, is the world's leading supplier of lamps to the automotive industry and aftermarket.

Our technological innovations have been on the forefront of automotive lighting for 100 years and have led to the advancement and modernization of automotive lighting as we know it today.

Philips original equipment quality: our high manufacturing standards

We are committed to producing **best-in-class products** and **services** in the Original Equipment Manufacturer (OEM) market as well as in aftermarket. Our products are manufactured from **high-quality materials** and tested to the highest specifications to maximize the **safety** and driving **comfort** of our customers. Our products are meticulously **tested**, **controlled** and **certified** to the highest ECE requirements and ISO standards.

- We are the **choice** of all major car manufacturers
- Our lighting is equipped on **one in two cars** in Europe and one in three in the world
- Advanced **UV-quartz** glass technology
- Manufacturing processes that **exceed** current industry **specifications**.

We care

Feel safe, drive safe

For 100 years we've been **leading** the way, showing you the road and taking you home. You may not think about us, but we do little else than think about you. That's why our lighting solutions are the most **reliable** and **powerful** on the market today, far surpassing industry standards.

Light is the first and only part of the safety circle that actually helps **prevent accidents**, so **safety** begins with seeing and being seen. Our products produce powerful and precise light, combining **performance** and **reliability** to make your drive a safe one. We produce high quality, efficient lighting solutions because we know that **your life depends on it**.

Care how you drive

Our engineers have been pioneering some of the most innovative and **sustainable** lighting solutions to make your drive a safer one. Our development of LEDs along with our new xenon range means **more light** and **less energy consumption**. We produce **reliable**, **longer-lasting** products that minimize environmental impact by producing **less waste** in compliance with the EU Waste Electrical and Electronic Equipment Directive (WEEE). We continue to lead the lighting industry in **reducing** the amount of hazardous material used, surpassing the EU RoHS requirements for mercury.

Pb free

Drive with style

Today's drivers are not only looking for more safety and reliability, they're looking for **more performance** and **style**. They want to fully **customize** their ride with their own unique look. With the new ColorVision range, customers can restyle with light, adding a touch of blue, green, yellow or purple to their ride. Our new LED DayLight 9 features a revolutionary lens for a unique design signature.

Connect to the secure internet platform **www.philips.com/original**

Our **pro-active solution** against xenon lamp **piracy**

Counterfeit Philips xenon lamps are becoming increasingly available through online and offline distribution channels. These counterfeit lamps are **poor imitations** of **inferior quality**. Buying, selling or being in possession of counterfeit products is illegal.

To **protect** our customers and all consumers from counterfeit Philips lighting products, we've created a **pro-active solution** using unique, **state-of-the-art** technology.

Philips **Certificate of Authenticity (COA)** is now available on **every new xenon lamp package you order**.

Using the **Security code**, as well as other special security elements, professionals can verify the **authenticity** of the Philips product on a dedicated, fully secure internet platform. Professionals can either scan the QR code or go to **www.philips.com/original**.

Philips is committed to helping **protect** its customers from poor imitations of inferior quality that may damage a vehicle or result in personal injury.

Always ensure that you are buying **genuine Philips products**.

Safety

Xenon Vision

Ideal for replacement

- **Philips original equipment quality xenon technology**
- **Single-lamp replacement technology: new lamp matches color temperature of the unchanged one**
- **Economical choice**
- **Homologated 4 600 K**

Standard

Xenon Vision

Philips Xenon Vision replaces a single burned-out lamp while **matching** the **color** of the unchanged one. Xenon Vision is the ideal replacement lamp—and it's **economical** too! Its new **single-lamp replacement** technology allows for one-by-one replacement while still **matching** the color temperature of the unchanged lamp.

12V spare kit essentials

For increased **safety**, it is **recommended** by most European countries that all vehicles be equipped with a **homologated spare kit**. Compulsory in some European countries and recommended by most, having a homologated spare kit in a vehicle will not only keep drivers in **compliance** with the law but will also keep them **safer** as they will always be prepared to **replace** a burned-out lamp.

LED interior lighting for cars and trucks

Philips **LED interior lighting** illuminates the vehicle's interior with power and precision. The Philips **X-tremeVision LED** range provides light where it is needed the most, without distracting the driver. Choose a range of temperatures from **4 000 K** to up to **8 000 K**, from **powerful**, **warm white** to **ultimate blue** light for maximum perception and styling. The Philips X-tremeVision LED range produces up to **5 times more light** while using **13 times less energy**.* Its **power**, **economy** and **12-year lifetime** are **simply incomparable.**

*Compared to a standard lamp

Interior lighting

X-tremeVision LED

- **4 000 - 8 000 K color temperature**
- **High-performance LED**
- **Perfect geometrical fit**
- **Heat and vibration resistant**
- **12-year lifetime**

Producing **5x more light** than standard incandescent lamps, the Philips 12V and 24V X-tremeVision LED ranges are equipped with **high-power LEDs** that illuminate the interior with a **cool**, **bright** and **precise** light while not distracting the driver. They are available from **4 000 K** temperature up to **8 000 K** (depending on the lamp you choose).
Because of its **12-year lifetime** and exceptional **heat** and **vibration resistance**, it is the perfect choice for 24V interior lighting (trucks, buses and heavy-duty vehicles) and for those seeking an economical solution for the entire fleet. Offering a perfect geometrical fit, the Philips X-tremeVision LED interior lighting solution is the **ideal replacement for any vehicle**.

X-tremeVision 4 000 K
Powerful Philips **X-tremeVision 4 000 K** Bright white is the perfect and **economical replacement** for a standard incandescent interior lamp.

X-tremeVision 6 000 K
The Philips **X-tremeVision LED 6 000 K** Daylight effect illuminates the interior with power **where it's needed most**.

X-tremeVision 8 000 K
The **new** Philips **X-tremeVision LED 8 000 K** Cool blue offers a unique **stylish blue xenon effect** for drivers seeking more style and the power of daylight.

LED Daytime Running Light solutions

Discover our range of LED Daytime Running Light solutions, designed to **improve driver safety** by increasing vehicle visibility during the day. Easy to install, Philips OE Quality LED Daytime Running Light range is equipped with the latest high-power LUXEON® LEDs.
To **enhance vehicle visibility** in any traffic situation and in all weather conditions, check out the ultra-powerful Philips **LED DayLightGuide**.

Its **revolutionary lens** and innovative lightguide technology offer an exclusive design signature **without dots** and boasts **wide-angle visibility**.
For maximum **simplicity** and ease of **integration**, we offer the **new stylish** and **compact** Philips **LED DayLight 9**.

Philips LED Daytime Running Lights, a must for **greater safety** and **style**!

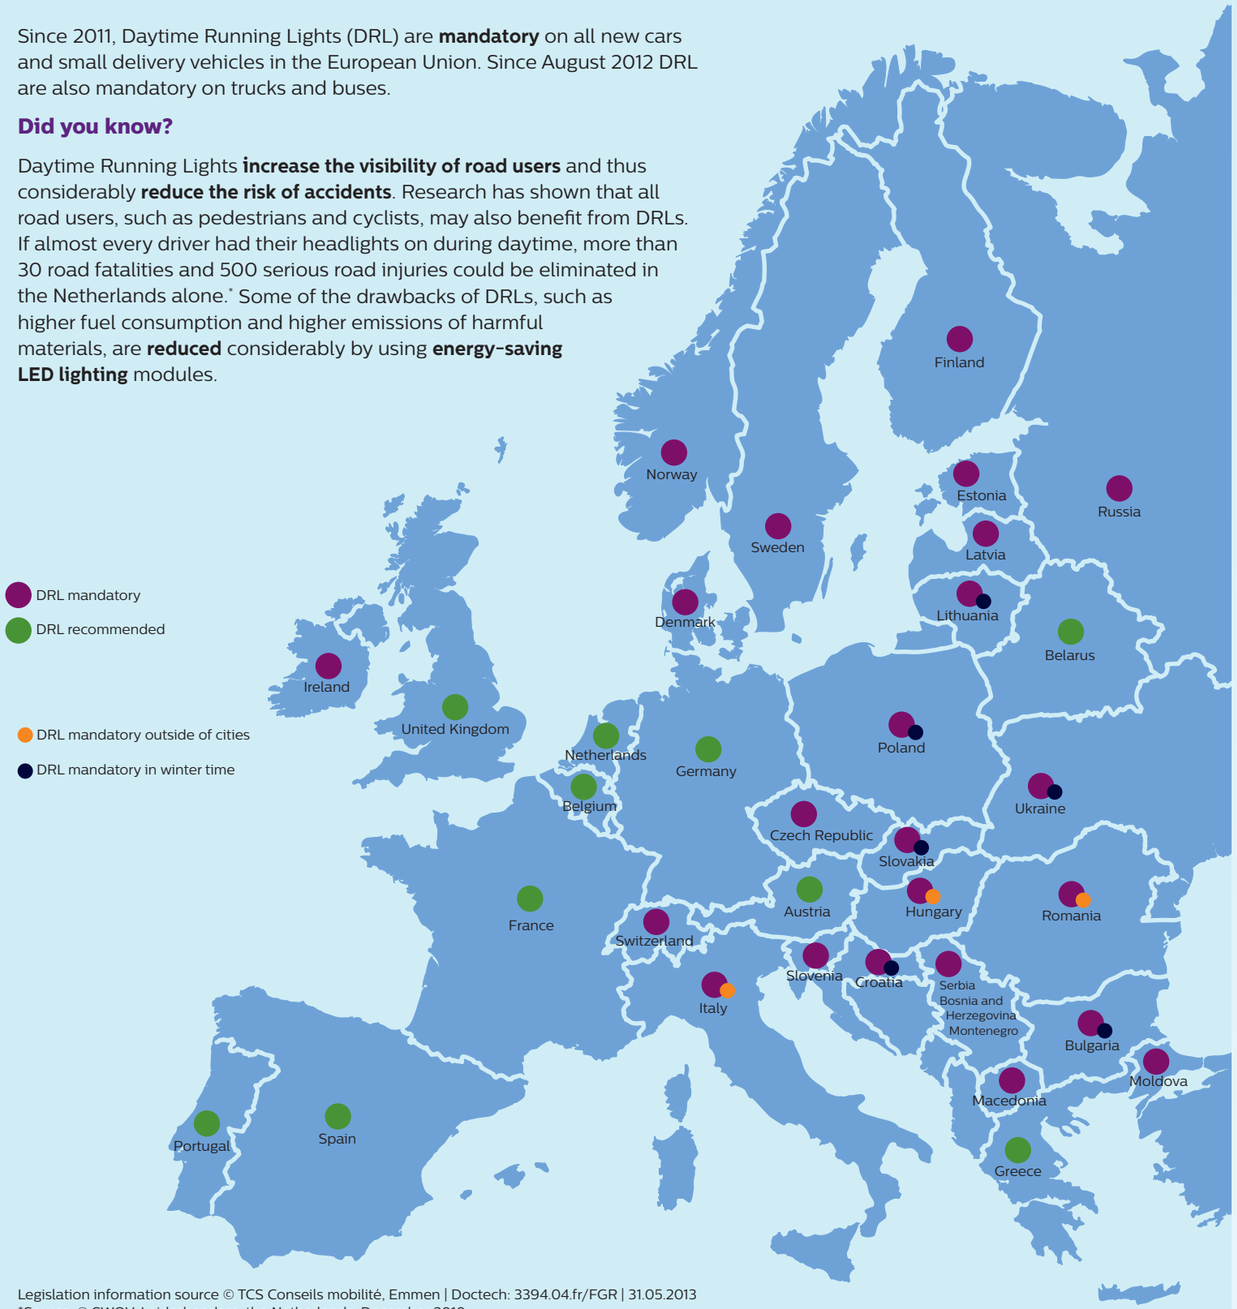

LED Daytime Running Lights

European regulations

Since 2011, Daytime Running Lights (DRL) are **mandatory** on all new cars and small delivery vehicles in the European Union. Since August 2012 DRL are also mandatory on trucks and buses.

Did you know?

Daytime Running Lights **increase the visibility of road users** and thus considerably **reduce the risk of accidents**. Research has shown that all road users, such as pedestrians and cyclists, may also benefit from DRLs. If almost every driver had their headlights on during daytime, more than 30 road fatalities and 500 serious road injuries could be eliminated in the Netherlands alone.* Some of the drawbacks of DRLs, such as higher fuel consumption and higher emissions of harmful materials, are **reduced** considerably by using **energy-saving LED lighting** modules.

LED DayLight 9

High visibility for maximum safety

- **Bright from all angles**
  Multiple-angle mounting for wide-view light effect
- **Stylish, uniform illumination**
  New optical design with 9 LED dots
- **Fits most car models***
  Legally mounted on bumper angles up to +/-40°
- **Easy installation on all cars**
  Smart clip-on system
  Hybrid, electric and start & stop compatible
- **Philips original equipment quality, 100% road legal**
  Water and gravel-impact resistant
  High-quality aluminum housing

The third generation of Philips Daytime Running Lights combines **superior style** and **increased visibility**. With its renewed optical design, the Philips DayLight 9 offers increased mounting flexibility: a **road-legal solution** for **any car** to stand out from the crowd.

Bright and attractive from any angle

LED DayLight 9 dimensions: W125 x H24 x D31 mm

24V
Bus and Truck lighting

Quality Original Equipment 1914

Our 24V Bus and Truck range **outperforms all the competition!** For maximum **safety**, **comfort** and **savings**, discover our 24V MasterDuty and MasterLife, now offering **ultimate lifetime** and improved **vibration resistance**. These original equipment quality lighting solutions offer **maximum performance** and minimum downtime. Our lamps keep a **fleet productive** and **on the move** by minimizing time-consuming interruptions. We are committed to developing the most powerful and robust 24V lighting solutions on the market in order to **meet the needs** of both large and small fleet owners, transportation departments and all garage professionals.

Which **24V** Bus and Truck lamp do you **need**?

Safety and durability

MasterLife

Outperforms everything on the road

- **Lasts up to 4x longer***
- **Maximum vibration resistance 2x***
- **Extra robust double-coil filament**
- **High-performance quartz glass**
- **Philips original equipment quality**

Available in C1 packaging

Philips MasterLife lasts up to **4x longer** while withstanding extreme **stress** and **vibration**. MasterLife offers the **best lifetime on the market**, lasting **4x longer*** than the average headlamp by using a unique gas composition, together with the geometrical properties of the double-coil filament, designed to reduce tungsten evaporation. It features the vibration resistance of MasterDuty for maximum strength and durability. **MasterLife headlamps outperform the competition by far!**

It is the ultimate original equipment quality truck lighting solution with **maximum performance** and **minimum downtime**. With a **minimum failure rate** they keep a fleet productive and on the move by minimizing time-consuming interruptions. **MasterLife is the smartest choice for large fleet owners!**

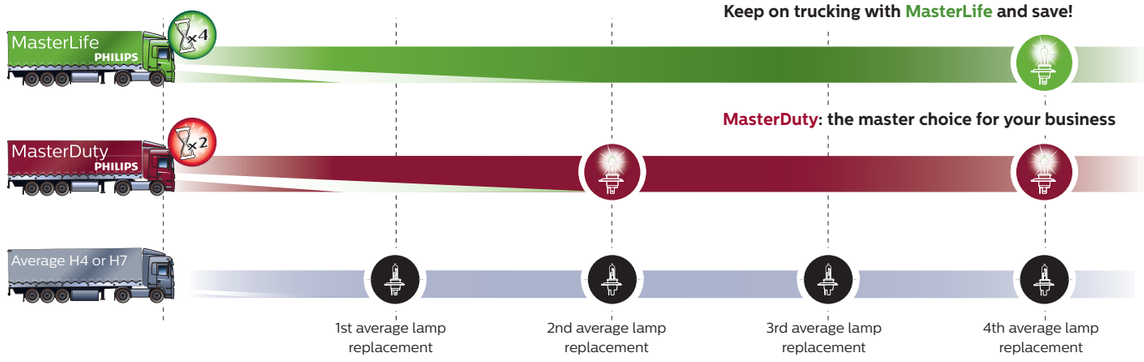

*Compared to average H4 or H7 product on the market.

MasterLife and MasterDuty performance chart

Durability
MasterDuty

Built to last

- **Lasts up to 2x longer***
- **Maximum vibration resistance 2x***
- **Reinforced mount and base guards against shock**
- **Extra robust double-coil filament**
- **High-performance quartz glass**
- **Philips original equipment quality**

The Philips MasterDuty headlamps are designed for **maximum vibration resistance** and excellent **lifetime**. These headlamps **last 2x longer** and have **twice** the **vibration resistance** of an average lamp on the market. MasterDuty features increased mount and base stiffness for ultimate protection against mechanical shock as well as a robust double coil filament designed to withstand severe vibration while remaining stable.
MasterDuty is the **right choice** for drivers seeking **toughness** that **lasts**.

*Compared to average H4 or H7 product on the market.

Style
MasterDuty BlueVision

Maximum xenon effect

- **Maximum vibration resistance 2x***
- **High-performance quartz glass with xenon-effect coating**
- **Distinctive blue cap, looks sharp even when turned off**
- **Philips original equipment quality**

Standard

MasterDuty BlueVision

For drivers seeking **ultimate style** and **performance**, MasterDuty BlueVision produces a **blue xenon effect**. Philips MasterDuty BlueVision combines the **durability** and **vibration resistance** of MasterDuty with an additional blue xenon effect for maximum style. These lamps can resist **twice the vibration** of an average lamp. Not only stylish, the blue effect in the headlight combined with powerful white light on the road, offer more safety.
For the most demanding jobs and the most demanding drivers, this is the lighting solution that delivers **performance** with **true style**!

*Compared to average H4 or H7 product on the market.

Headlight restoration kit

We developed the **Headlight restoration kit** to restore automobile, truck and two-wheeler lenses to like-new condition with **professional results** without the need of any power tools. This is a high-quality and **cost-effective alternative** to complete headlight replacement. Its **UV-protection** is guaranteed for two years. A smart addition to automotive lighting and a handy **addition** to **your toolbox**! Your customers' satisfaction guaranteed!

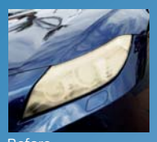

Safety

Headlight restoration kit

Restores headlight lenses to like-new condition!

- **Less glare and up to 100% brighter lens**
- **Provides safer night-time driving**
- **Removes haze and yellowing from harmful UV-rays and dirt**
- **Professional results without power tools in 30 minutes**
- **High quality and economical**
- **2-year UV-protection guaranteed**

Before

After

Removes the fading and yellowing of headlight lenses and restores them to their original state of **transparency** for greater safety. Headlight lenses fade and oxidize from constant exposure to the elements and become scratched due to impacts. The **protective UV coating** applied at the factory deteriorates causing the lenses to yellow, which can result in a **40% loss of night-time light**. The **Headlight restoration kit** contains all you need to restore two headlight lenses of any vehicle for your customer's **safety** and **satisfaction**.

Professional workshop lamps

Defeat darkness

There's **no room for errors** when you are in a **race**. And when the nearest town is hundreds of kilometers away, you need to be sure things work at their best.
Our Professional workshop lamps are designed to **illuminate every detail** with pinpoint precision, letting you **focus** on getting the **job done**. So, no matter how challenging the situation is, when it puts your skills to the test, you can **be sure** you've got the **right tools for the job**.

"The Philips professional workshop lamps are a **big improvement** on the LED lamps we used to work with. The **light output** is **enormous**; they **outperform** everything I've ever used before. They can withstand fluids and are **resistant** to sand, dirt, grease. They're scratch resistant and **robust**."

Andree van de Kamp

90 lm

Penlight

See clearly, work better

Brighter and longer lasting
- 6 powerful, high-quality, long-lasting LEDs
- White and very intense light

High resistance
- Water and dust proof IP20

See what remains hidden for others
- Eliminates all shadows
- Focus light: 20 lm

Battery autonomy of up to 6 hours

The Penlight is compact and easy to operate in confined spaces. Six high-performance, long-lasting LEDs produce a powerful light where needed the most.

LPL19B1

120 lm

Penlight Professional

The portable inspection tool

Very intense white light for optimal vision
- High-quality LEDs with 120 lm light output
- Natural white light of 6 000 K

Access very narrow cavities
- LED pointer on top 20 lm
- Small and compact

Up to every inspection job
- Water and dust proof IP54
- Shock-resistant housing
- 11-hour battery autonomy

Philips Penlight Professional is a durable and reliable inspection tool featuring 6 long-lasting and powerful LEDs producing 120 lumens of bright, natural white light for precise inspection of any area.

LPL28RECHX1

145 lm

Penlight Premium

Workshop lamp in a compact format

Comfortable light for fatigue-free work
- High-power LUXEON® LEDs with 145 lm light output
- Natural white light of 6 000 K
- Homogeneous and wide beam

See what remains hidden to others
- Strong LED pointer of 120 lm
- Robust, comfortable and hands-free

Rotatable clip holder with integrated magnet
- Robust, aluminum housing with soft grip

Fast charging and consistent light output
- Latest LFP battery technology (1800 mAh + USB recharging) delivers great battery life
- Up to 6-hour battery autonomy

Available 01/2015 onward

The portable worker's companion that combines high-power LED technology with a robust, user-friendly design in a compact size. Philips Penlight Premium is the choice for those who want maximum light in a small size.

Limited edition

LPL25RECHX1

120 lm

100 years of automotive lighting

Penlight Premium

Limited 100 year gold edition

Since producing our first headlight in 1914, Philips has become the world's largest supplier of lamps to the automotive industry. In light of this "lighting anniversary" we have released a limited edition of a special, commemorative Penlight Premium.

The Philips Professional workshop lamps range is specifically designed for **maintenance** and **long-term inspection work**. These powerful inspection tools are available in either **rechargeable** (RCH) or **cabled** (CBL) versions.

New

LPL20X1

RCH10

150 lm

Cordless professional lighting tool

More light output
- White LED light

High resistance
- Impact resistant: IK07
- Water resistant: IP54

Hands-free lighting
- Cordless, with rotatable hook

The compact rechargable workshop lamp is ideal for quick inspection and longer repair operations.
It eliminates all shadows with its strong 70° light beam while its 360° rotatable hook provides a hands-free working environment.

LPL12X1 / LPL13X1

200 lm

RCH20

Cordless professional lighting tool with docking station

Homogeneous and very white light
- 1 LED strip with 200 lm light output
- 6 000 K color temperature to reduce eye strain
- Broad illumination area of 70°

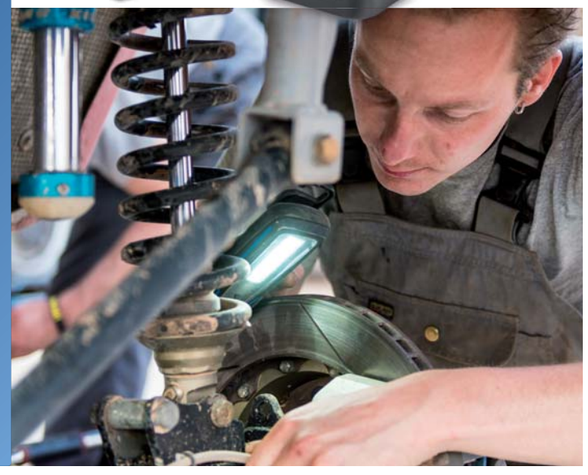

Hands-free use
- Powerful, integrated magnet
- Retractable 360° hook

Quick charging
- Operating time of up to 3 hours
- Fast recharging on docking station

Powerful and cordless, Philips RCH20 lighting tool features 200 lumens in a single LED strip for precise and homogeneous lighting.

LPL10UVX1 / LPL11UVX1

220 lm

RCH30

Cordless professional lighting tool with UV-A leak detector

More light for optimal vision
- 8 high-power LEDs with 220 lm light output
- Increased beam angle of 70°

Robust and highly resistant solution
- Improved battery capacity: 4-hour battery autonomy
- Docking station for inductive charging
- High protection rating: IP66 and IK09

The easy-to-use and versatile tool
- Integrated magnet
- UV-A light function to detect air conditioning leaks
- Smart shape for easy positioning

Boasting powerful LEDs for precise visual inspection and a UV-A leak detector, the Philips RCH30 workshop lamp is a versatile illumination tool with up to 4-hour battery autonomy.

Four tools in one
- Use as light box, torch, spotlight and light bar

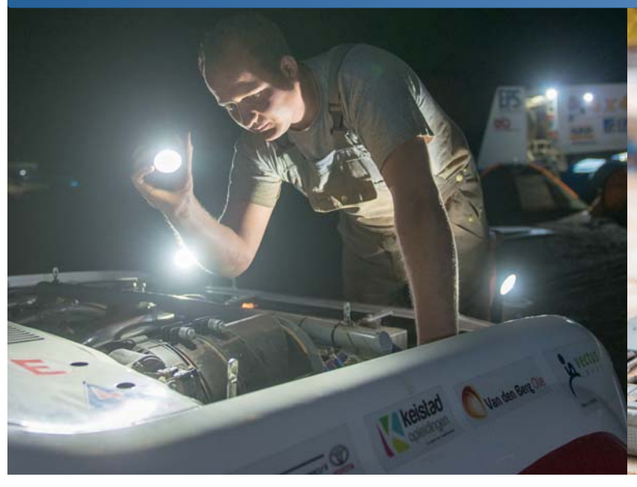

More light output
- High-power LUXEON® T LEDs for long-lasting comfortable light output
- Natural white light of 6 000 K
- Two light modes: 360 and 750 lm
- Powerful magnet, rotatable heads and adjustable lenses

Robust tools
- Robust protective housing: IP54 and IK07
- Sturdy toolbox for storing and recharging of the module

Never lose your lamp again
- Improved color scheme for easy relocation

The MDLS is an all-in-one professional lighting solution, representing a new generation of workshop lamps designed for professionals. Robust and hands-free, the three multidirectional modules will provide you optimal visibility without shadows.

Online **tools**

www.philips.com/automotive

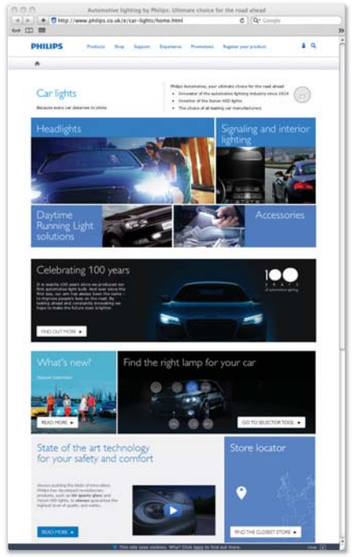

Car lighting

Two-wheeler

Welcome to our fully-revamped **consumer website**. Each **product category page** allows you to discover our full portfolio of lighting products. From **headlamps** (halogen and xenon) to **signaling and interior lighting** (conventional and LED), **LED Daytime Running Lights** and **accessories** such as our complete **Professional workshop lamps** offer.
Discover our new **online catalog** filled with useful information **about every Philips lighting product** we offer, technical specifications and **Where-to-buy** information. Visit our handy **Product selection** tool and the **Experience your light** module–helpful when choosing an automotive lighting product.

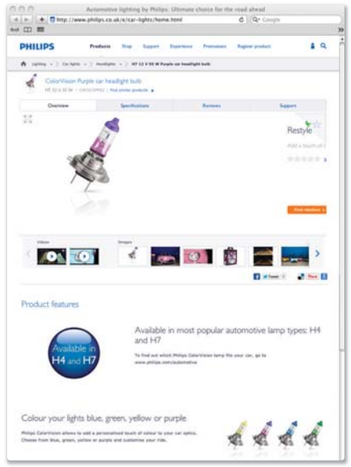

Product category pages

Our **Product category pages** are dedicated to **automotive** and **two-wheeler lighting**. Discover our **new** products, our **innovative** technology or our special events.

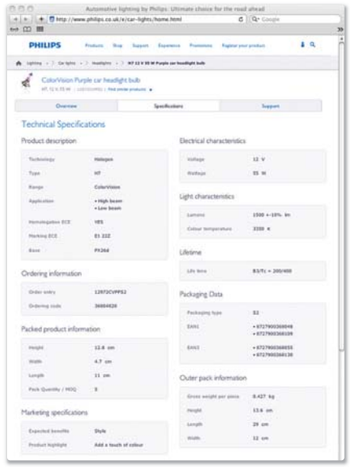

Online catalog pages

Our **new Online catalog** pages let you discover **all the information you need** about **all of our lighting products**. Read in detail about the **product features**, the availability and certification information, download product **images** and view the product **movie**.

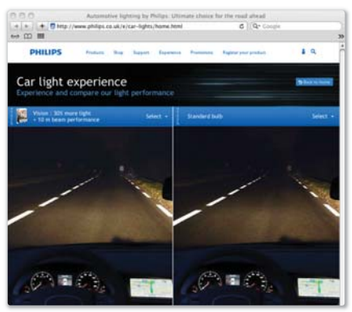

The **Product overview** page presents al the information you need about each of our products: from product images, marketing support images and movies, product availability, to certification. The tabs lead you to the technical specification page and support information.

The **Technical specifications** page is loaded with useful information, including ordering information, technical characteristics and packaging information.

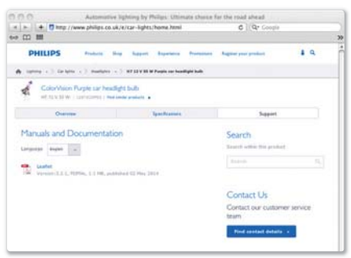

Tools

Our rich **tools pages**, such as the **Car light experience** module, let you experience our powerful lighting by comparing our upgrade lamp to a standard one.

Our **Product selector** tool (**Application guide**) helps you **find the right lamp** for your vehicle in three simple steps.

Our **Support page** lets you download the product brochure or other product documentation. It also allows you to **contact Philips** and our **Customer service**, or **discuss** the products online with us or other users.

Sales and marketing **tools**

We've created useful **tools** to satisfy your customers' needs and expectations and to help you market and sell Philips Automotive products with success. As always, we strive to **educate** the consumer with coherent and **consistent in-store** information. We invite you to **place your order** using the ordering information or simply **contact** your Philips sales representative!

In-store excellence

The in-store experience is essential. We constantly strive to improve the consumers' shopping experience by identifying and understanding their behavior and by satisfying their wants and needs. We strive to educate the consumer by delivering clear and comprehensive messages through packaging, displays and merchandising. **In-store excellence is our goal**.

We offer **complete kits** to dress up your shelves. These may be customized if needed. We provide **shelf-planning** services too.

For more information, contact your philips sales representative.

Packaging design

- **Attractive design and color codification for easy and pleasant in-store experience**
- **Product clearly visible**
- **Clear information-easy choice for the consumer**
- **Highlighted product benefits**
- **Philips original equipment quality logo**
- **Sustainable**

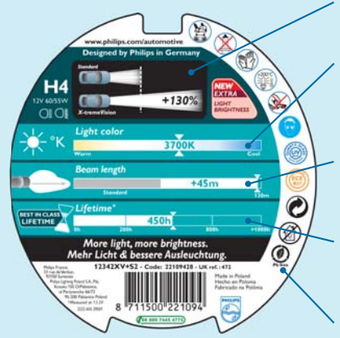

Our products are known for their **high quality** as well as for their **simplicity** and **ease of use**.

Discover the improved Philips packaging system that is designed to **help** your customers **make the right choice** when selecting a lighting product. Our attractive and informative packaging helps the customer find the product they are looking for with ease and simplicity.

And of course, our packaging is **sustainable**.

Special packaging

Principal Philips product benefit clearly indicated

Light color bar indicates the color temperature of the lamp in degrees Kelvin. It shows clearly the color of the projected light from warm to cold

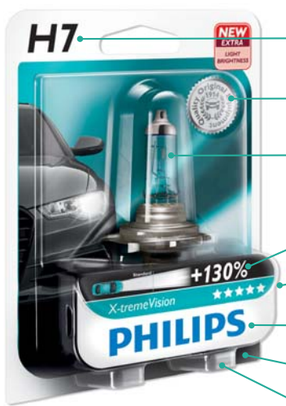

Beam performance shows the amount of light projected on the road in comparison to a standard lamp

Lifetime indicates the durability of the lamp expressed in hours of usage

Icons indicate warnings as well as basic recommendations, quality indications and Philips product compliancy.

Consistent message throughout the complete Philips halogen offer, whether it is **blister** or **special** packaging.

Blister packaging

Lamp type indication clearly visible for simple and fast product selection by the consumer

Philips original equipment quality seal clearly visible to guarantee Philips original quality to the consumer

Philips product dominates the packaging to show the high quality product

Principal Philips product **benefit** clearly indicated

Philips **star system** for quick performance rating

Philips brand

Optimized size for increased linear performance

Less raw materials for less ecological impact

Product **index**
