

Energy saving twister lamps.

PHILIPS ENERGY SAVER TWISTER COMPACT FLUORESCENT LAMPS

Philips Energy Saver Twister compact fluorescent lamps provide energy saving light and reduced operating costs.

Energy savings

- Saves up to \$118 in energy costs as compared to a 150W incandescent lamp*

Long life

- Lasts 10,000 hours**

Energy saving replacement for incandescent bulbs

- Available in a wide variety of color temperatures
- Compact size fits most small fixtures

*, **, See footnotes on reverse side.

1. Rated average life is the length of operation (in hours) at which point an average of 50% of the lamps will still be operational and 50% will not.
2. Approximate lumen output at 40% of lamp rated average

Footnotes from front:

* At \$0.11 kWh, this 42-Watt Energy Saver bulb rated at 2800 lumens uses \$46.2 of electricity over its 10,000 hour life. This is a \$118.80 savings when compared to the \$165 required to run a 150-watt incandescent bulb rated at 2600 lumens over the same period. Actual savings will vary depending on cost per kWh in your area.

** Based on 3 hours average usage per day/7 days per week.

WARNINGS AND CAUTIONS:

Some electronic timer and photosensor switches contain dimming circuitry, so before using such a switch, check with its manufacturer to ensure compatibility with electronic CFL bulbs. Do not use with emergency exit fixtures or lights. Outdoor use requires weather-protected fixture. Do not use where directly exposed to water. Before replacing, turn off power and let lamp cool to avoid electrical shock or burn. This device complies with Part 18 of the FCC Rules. Not for use in totally enclosed recessed fixtures. Reliable operating temperature range -4°F/-20°C to 140°F/60°C.

Note: This product may cause interference with radios, televisions, telephones, or remote controls. If interference occurs, move this product away from device or plug into another outlet.
